

mDP to DVI Connectivity Kit - Active Mini DisplayPort to HDMI Converter with 6 ft. HDMI to DVI Cable

StarTech ID: MDPHDDVIKIT

Create an active mDP to DVI connection with this versatile two-piece connectivity kit gives you everything you need to connect your Mini DisplayPort computer directly to your DVI monitor, up to 6 feet away, with the added benefit of an independent mDP to HDMI adapter. The kit includes two reliable StarTech.com products that have been rigorously tested for mutual compatibility: an active mDP to HDMI adapter (MDP2HD4KS) and a 6 ft. HDMI to DVI cable (HDMIDVIMM6).

Convenient and portable

This convenient connectivity kit includes an mDP to HDMI adapter and an HDMI to DVI cable, which makes it easy to dock your laptop or tablet to an office console or hot desk. Plus, the portable mDP to HDMI adapter is easy to carry with you when you're on the go.

Quick and easy Mini DisplayPort to DVI connection

Because this kit includes two devices that deliver your mDP video signal directly to your DVI monitor, you won't require any additional cables or adapters. Plus, the adapter doesn't require any software or drivers, so it delivers a truly hassle-free installation.

Active mDP to DVI and HDMI video

For maximum compatibility with a wide range of devices, this kit features an active mDP to HDMI adapter, ensuring it will work with HDMI and DVI devices that require an active video output, such as the Microsoft® Surface™ docking station.

The mDP to HDMI converter is compatible with Intel® Thunderbolt™ devices that output a DisplayPort video signal.

The MDPHDDVIKIT is backed by a 2-year StarTech.com warranty and free lifetime technical support.

Applications

- Easily connecting your mDP MacBook, Surface Pro or Ultrabook™ to a DVI display
- Carry the active mDP to HDMI adapter with your laptop for BYOD office applications
- Create a hot desk or console docking solution for mDP computers at your DVI display

Features
