Important Safety Instructions
1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding-type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments/accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

For customers in Canada
This Class B digital apparatus complies with Canadian ICES-003.

For the state of California USA only
Perchlorate Material — special handling may apply. See www.dtsc.ca.gov/hazardouswaste/perchlorate
Perchlorate Material: Lithium battery contains perchlorate

Precautions
• To disconnect the AC adapter, pull it out by the plug, not the cord.
• Since a strong magnet is used for the speaker, keep credit cards using magnetic coding or spring-wound watches, CRT-based TVs, or projectors, etc., away from the unit to prevent possible damage from the magnet.
• Do not leave the unit in a location near a heat source such as a radiator or air vent, or in a place subject to direct sunlight, excessive dust, mechanical vibration, or shock.
• Allow adequate air circulation to prevent internal heat build-up. Do not place the unit on a surface (e.g., a rug, blanket, etc.) nor near materials (a curtain) which might block the ventilation holes.
• Should any solid object or liquid fall into the unit, unplug the unit and have it checked by qualified personnel before operating it any further.
• Do not handle the unit with wet hands.
• Do not place the unit anywhere near water.

NOTES ON LITHIUM BATTERY
Wipe the battery with a dry cloth to assure a good contact.
Be sure to observe the correct polarity when installing the battery.
Do not hold the battery with metallic tweezers, otherwise a short-circuit may occur.

In the Reference Guide, “iPod” is used as a general reference to functions on an iPod, iPhone or iPad, unless otherwise specified by the text or illustrations.
If you have any questions or problems concerning your unit, please consult your nearest Sony dealer.

Operations
Power source
Power management system
After playback of the iPod or component connected to AUDIO IN (jack) has finished, if no operation is performed for about 20 minutes, the unit will automatically turn off.

To prepare a power source
Connect the supplied AC adapter to the DC IN 19.5V jack on the back of this unit firmly, and plug it into a wall outlet.

Note on the AC adapter
• Use the supplied Sony AC adapter only. The polarity of the plugs of other manufacturers may be different. Failure to use the supplied AC adapter may cause the unit to malfunction.

To charge your iPod
You can use the unit as a battery charger for your iPod when the power is supplied by the AC adapter.
Charging begins when the iPod is connected to the unit. The charging status appears in the display on iPod. For details, see the user's guide of your iPod.

Note
• The iPod continues to be charged when powered by the AC adapter and turned on or off.

To turn the unit on/off
Press (Power). The indicator lights up when the unit is turned on.

To adjust the volume
Press VOLUME (up/down)

To select iPod or AUDIO IN as the source
Press iPod or AUDIO IN. The iPod or AUDIO IN indicator will light up when the button is pressed.

To play/pause the iPod
Press or .

The Reaction indicator flashes when the command is received.

Precautions
• Turn the unit on/off. The indicator lights up when the unit is turned on.
• Press and hold to turn off the iPod. (Forward)/ (Backward)
• Go to the next track.
• Press and hold while listening to the sound to locate a desired point.
• Press and hold in pause while observing the display on iPod to locate a desired point.
• Select a menu item or track for playback.
• Select iPod as source.
• Select AUDIO IN as source.

MENU
• Go back to the previous menu.

ENTER
• Execute the selected menu item or begin playback.

Note
• The iPod nano (6th generation) cannot be controlled by the remote when the command of ‘MENU’, ‘·’ and ‘ENTER’ is pressed.

When to replace the battery
When normal use, the battery (CR2025) should last for about 6 months. When the remote commander no longer operates the unit, replace the battery with a new one.

For USA customers only
NOTE
• This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
  — Reorient or relocate the receiving antenna.
  — Increase the separation between the equipment and receiver.
  — Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  — Consult the dealer or an experienced radio/TV technician for help.

WARNING
To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.

To reduce the risk of fire or electric shock, do not expose this apparatus to dripping or splashing, and do not place objects filled with liquids, such as vases, on the apparatus.

Do not install the apparatus in a confined space, such as a bookcase or built-in cabinet.

Do not expose batteries or apparatus with battery-installed to excessive heat such as sunshine, fire or the like.

As the main plug is used to disconnect the system from the mains, connect the system to an easily accessible AC outlet. Should you notice an abnormality in the system, disconnect the main plug from the AC outlet immediately.

The system is not disconnected from the mains as long as it is connected to the AC outlet, even if the system itself has been turned off.

The dating code and the nameplate are located on the bottom exterior.

CAUTION
You are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this equipment.

DANGER of explosion if battery is incorrectly replaced. Replace only with the same type.
Playing an iPod

Compatible iPod models
The compatible iPod models are as follows. Update software of your iPod to the latest version before using it with this unit.
- iPod touch (4th generation)
- iPod touch (3rd generation)
- iPod touch (2nd generation)
- iPod nano (6th generation)*
- iPod nano (5th generation)
- iPod nano (4th generation)
- iPod nano (3rd generation)
- iPod classic
- iPhone 4
- iPhone 3GS
- iPhone 3G
- iPad 2

* The iPod nano (6th generation) cannot be controlled by the remote when the command of "MENU", "*", and "ENTER" is pressed.

To close the Docking Tray
1. Remove the iPod from the Dock connector.
2. Press the Docking Tray on the front of the unit until it is locked.

To play back
Press the Docking Tray.

Tip
You can operate the connected iPod via this unit. The iPod begins to play back.

Automatic Switching (for iPod/USB/MP3)
The iPod is automatically switched when it is connected.

Connecting optional components
You can enjoy the sound from an optional component, such as a portable digital music player, through the speakers of this unit. Be sure to turn off the power of each component before making any connections.
1. Firmly connect the line output jack of a portable digital music player (or other component) to the AUDIO IN jack on the back of the unit, using a suitable audio connecting cable (not supplied).
2. Press VOLUME +/- to turn on the unit.
3. Turn the connected component on.
4. Press AUDIO IN to select the source.
5. Play the connected component.

The sound from the connected component is output from the speakers of this unit.

Note
- If a pop-up message appears on the display of the iPod touch/iPhone/iPad, see "About App."
