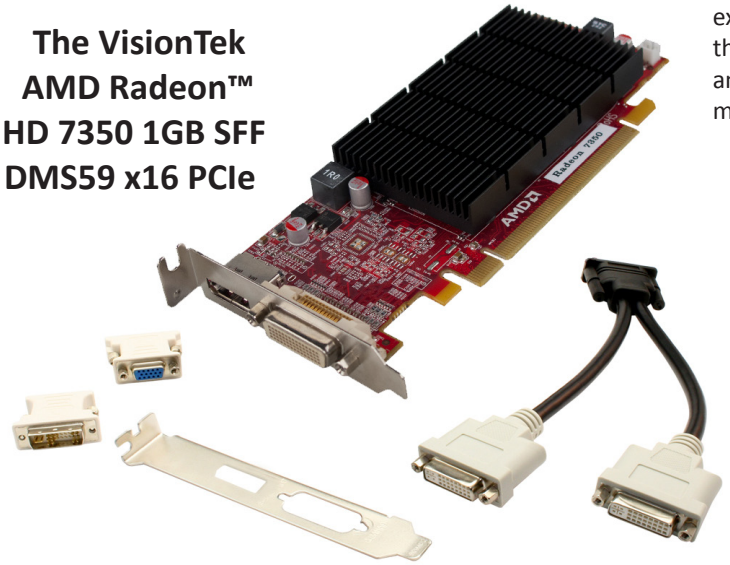
VisionTek®

The VisionTek AMD Radeon™ HD 7350 1GB SFF DMS59 x16 PCIe



Manufacturer
Part # 900607

Full 2560x1600 Dual Link DVI Resolution Capable

The VisionTek AMD Radeon™ HD 7350 1GB SFF DMS59 x16 PCIe graphics card offers the most features and functionality in its class with complete DirectX 11 support and the world's most advanced graphics, display features and technologies. Designed to deliver a feature laden gaming/computing experience, AMD Radeon™ HD 7350 enables a seamless HD gaming experience with amazing image quality. At the "heart" of the entertainment experience on the PC, things like video playback, editing and transferring content to portable media players are now fast and easy. Supports Windows 7 and future DirectX®11 games giving users incredible system performance in an energy efficient card that is easy to install with no external power supply needed.

A great option for business users who engage in video conferencing or use creative applications that require fast frame rates and exceptional visual quality.

With platform-independent intelligent power management, the AMD Radeon™ HD 7350 Series graphics cards deliver the power needed to blaze through even the most intense applications while intuitively conserving energy at idle or when demand is low.

Expand your visual workspace with multi- monitor support for advanced multi- tasking to help you get more done in less time.

Ideal for moderate gaming, multimedia, office productivity, and Workstation applications.
