

## HW-F850 AudioBar

### THE PERFECT SOUNDBAR FOR BIG-SCREEN ACTION.

Introducing the Samsung AudioBar built specifically for our larger TV screen sizes (60" or more). Our innovative circuitry combines Vacuum Tubes and a Digital Amp. Wirelessly connect your AudioBar and 8" subwoofer to your TV. Plus effortlessly stream music from other devices via bluetooth®. The sleek metal design pairs well with your TV and the warm glow of the vacuum tubes adds a stylish touch.

<sup>1</sup>Select Samsung TVs with Bluetooth® Compatibility.

<sup>2</sup>Near Field Connectivity is a standards-based, short-range wireless communication technology that enables convenient short-range interaction between your electronic devices.

## HW-F850 AudioBar

### KEY FEATURES

#### SoundShare<sup>1</sup>:

Simplify the installation of your AudioBar by eliminating the need to have a wired connection between the TV and AudioBar. Simply plug the main bar into AC power, the subwoofer to AC power and follow the simple directions to wirelessly connect your AudioBar to select Samsung TVs.

#### Bluetooth<sup>®</sup> with NFC<sup>2</sup>:

Wireless connectivity for streaming from your Bluetooth compatible mobile device; smartphone, tablet, music player.

#### Smart On:

When used with a 2013 Samsung TV, you will be able to power on the AudioBar and control the volume right from the TV remote.

### AUDIO

#### Dolby<sup>®</sup> Digital, DTS<sup>™</sup>

#### Smart Volume

Lets you set the product so the volume remains stable when a scene change occurs or when you switch the channel. Also, minimizes the change in volume that may occur when a commercial comes on.

#### DSP Settings (movie, game, drama, music, news, sports)

#### 3D Sound Plus:

Compliment the images you see on screen with the full sound of 3D Sound Plus. By analyzing the depth of the 3D image, 3D Sound Plus synchronizes the sound to match the motion and depth of the image. Now you can enjoy a fully immersive 3D experience.

#### Auto Sound Calibration:

Auto Sound Calibration can easily optimize your room by automatically adjusting audio settings based on the distance the speakers are place from the listening area in your room.

#### Carbon Nano Tube Speakers:

The new Carbon Nano Tube speaker design provides increased rigidity to the drivers for better responsiveness and improved sound quality.

### CONNECTIVITY

#### Anynet<sup>™</sup> (HDMI<sup>®</sup>-CEC):

With Samsung's Anynet+ you'll enjoy one-touch control for all your HDMI-connected compatible devices like your Samsung TV, Blu-ray Disc<sup>®</sup> Player, AV Receiver and Home Theater.

#### USB Host:

The range of music sources that you can enjoy is limitlessly widened to those of USB memory, external hard disk, MP3 Player and PMP. (supporting music file formats: MP3, AAC, WMA).

#### Audio Return Channel (ARC):

Eliminates the need to use two cable connections. Instead, all you need is one HDMI<sup>®</sup> connection between your AudioBar and TV. TV audio will be sent to the AudioBar and AudioBar audio (from connected external devices) will be sent to the TV using the same HDMI<sup>®</sup> cable.

#### HDMI<sup>®</sup>:

Get superior picture and sound from your HD source. The High-Definition Multimedia Interface (HDMI) is a digital connection that can transmit HD video and audio over a single cable. Use it to optimize the image quality when you connect your TV to high-definition sources such as HD cable TV, satellite receiver, or Blu-ray Disc<sup>®</sup> Player. It also features CEC capability, so you can use a remote control handset.
