

ScreenBeam Mini2 Wireless Display Receiver

Mirror photos and videos to your HDTV

With ScreenBeam Mini2, you can enjoy your favorite photos, videos, and movies on the best display in the house. Simply connect the tiny adapter to your high-definition TV and you can wirelessly display content from a compatible laptop, tablet, or smartphone. That means you can sit back and watch movies you've downloaded from Netflix, Hulu Plus, Amazon, or YouTube on your TV. You can share your vacation photos with friends or view a spreadsheet on a large HDTV without having to stare at a tiny screen.

Wirelessly Share ALL the Things You Love

Unlike media players that just give you access to online video and content, ScreenBeam Mini2 lets you share both local AND online content from your mobile device. You can beam photos, downloaded movies, personal videos, music, photos, games, online TV shows, web browsing, applications, presentations, documents, and more. You can mirror just about anything from your device's display to the high-definition TV.

Works With Millions of Devices

ScreenBeam Mini2 is compatible with devices you already own, including modern Windows, Android 4.2+ and Miracast-enabled laptops, tablets and smartphones.

Enjoy Better Quality with a Dedicated Wireless Connection

Using the latest Miracast technology, ScreenBeam Mini2 creates a direct wireless connection between your device and display. This means you don't need an existing Wi-Fi network or wireless router for ScreenBeam to work. More importantly, ScreenBeam's direct connection gives you ultra-low latency for the best possible wireless display experience.

Crystal Clear Content on the Big Screen

Your movies, videos, photos, and documents will look brilliant on the big screen with support for up to 1080p full HD video and HD audio. With ScreenBeam Mini2, you'll enjoy pristine picture and sound, just like with a high-priced HDMI cable.

Get Set Up in Less than One Minute

With ScreenBeam Mini2, you can get started in three easy steps.

Step 1 Plug ScreenBeam Mini2 into an HDMI port on TV.

Step 2 Wirelessly connect your device to ScreenBeam Mini2.

Step 3 Watch your content on the big screen.

- No apps to load! Enjoy the wireless display capability already in your mobile display.
- Wirelessly share ALL the things you love from your device to the big screen: downloaded movies, videos, photos, music, applications, web browsing and more.
- Dedicated wireless connection. Your mobile device connects directly to the Mini2 adapter.
- Simple to use. Just plug the Mini2 into your big screen and you're connected!
- Enjoy content from your device right on the hotel TV.
- No subscription fees, which means no need to set up an account for those recurring payments.
- Perfect for home use or for the mobile professional on the road.
- Supports up to full 1080p30 HD video and 2 channel stereo.
- Ultra-low latency for the best possible experience.
- Not Compatible with iOS
