

LogiLink®

USB3.0 to VGA/HDMI Display Adapter

Art. No.: UA0234

Experience 1080p video playback through USB 3.0 on an extended display.

10 times faster than USB 2.0, the USB 3.0 Display Adapter provides a wider bandwidth and a smooth high-resolution video content solution to add an extra display for your computer just plug and play. It works as an external USB-powered video card which provides the simplest way to add additional graphics capability instantly without hassle of opening the computer chassis. The connected display can act as a mirror or extended desktop of the main display on your computer. You can experience 1080p video playback through the VGA/HDMI interface and Super Speed USB 3.0 for both work and entertainment.

Features:

- » Compliant with USB3.0 Specification
- » Backwards compatible to USB2.0 specifications
- » Compliant with Universal Serial Bus Device Class Definition for Audio/Video Devices (USB A/V)
- » USB upstream port supporting data rate up to 5Gbps

USB3.0 to VGA/HDMI Display Adapter

Art. No.: UA0234

Application:

- Add a secondary HDMI or VGA display and extend your desktop without taking apart your computer to install a new video card
- Add multi-monitor capability to a single computer to create engaging multimedia presentations
- Use the adapter to connect your PC to your HDMI or VGA-equipped TV, for showing family pictures and movies
- Move and view your large spreadsheets across two screens without overlapping windows
- Multitask with larger landscape/desktop spaces
- Ideal for viewing multiple windows at the same time
- Increase productivity by running multiple applications on different screens and working on your email/facebook/twitter accounts all at the same time

Package Contents:

- » 1 x USB3.0 to VGA/HDMI Display Adapter
