

PC Shelter

The economical way
to protect PCs in hard-
working environments.

FEATURES

- » Protects computers from dust, dirt, grease, and moisture.
- » Ideal for factories, warehouses, machine shops, and food-service facilities.
- » Locking doors protect equipment from prying fingers as well as the environment.
- » Two interior compartments hold a single workstation with a printer.
- » The top compartment has a sturdy monitor shelf with a pull-out keyboard drawer underneath.
- » The shelf in each compartment has a cable access slot.
- » A fan on the rear panel of the bottom compartment provides ventilation.
- » For added convenience, the fan has a removable, washable filter.
- » The beige, textured, water-resistant surface is easy to clean and doesn't show fingerprints.
- » Casters lock for safety.

OVERVIEW

The **PC Shelter** is perfect for small installations that require a single PC and printer. It includes an upper monitor compartment with a unique pull-up/slide back door.

A pull-out drawer provides storage space and a writing surface. A second pull-out drawer gives you space for a keyboard.

The **PC Shelter** has a removable rear panel in its lower compartment. Plus, the shelter is equipped with a filtered fan, a power switch, and two brush-type cable openings.

The lower compartment features a pair of locking doors, a shelf with a cable access hole, and a rear-panel, filtered fan to provide ventilation.

Front panel slides up into the cabinet. The locking door has a 23" window so you can view the monitor.

A keyboard drawer under the monitor pulls out when you want to use the PC.

A storage drawer includes a separate lift-out writing surface.

Casters lock for safety.
