Discover a fuller, richer flavor

SENSEO® coffee boost gets the most out of your pad

The new SENSEO® Viva Café Plus coffee machine maximizes the coffee taste thanks to the SENSEO® coffee boost technology, which touches all 50 coffee beans at once for a fuller, richer flavor. And it offers more choice with intensity switch.

Enjoy the best tasting SENSEO® coffee

- SENSEO coffee boost technology gets the most out of your pad
- Delicious coffee crema layer as proof of SENSEO® quality
- Machine is tested >10,000 times to ensure consistent quality
- Unique brewing system for optimal taste and temperature

Coffee variety for every moment

- Variety of coffee blends and flavors for different tastes
- More choice, simple switch between 2 different coffees

Stylish design

- Adjustable real metal spout to fit your favorite cup

Fast and easy operation

- Unique coffee machine that brews 2 cups at a time
- Direct start to select your coffee while machine heats up
- 30 minutes auto shut-off for energy saving and safety
- Light indication reminds you when to decalcify

Highlights

Coffee boost technology

Get the most out of your pad thanks to the unique SENSEO® coffee boost technology that delivers a fuller, richer flavor through: 1) pre-brewing of the SENSEO® coffee pad gives the coffee time to bloom. Just before you start brewing your coffee, the appliance first carefully doses a bit of hot water. 2) A new finer distribution of water (from 5 to 45 water injection points) which ensures the hot water is optimally spread over the entire pad and therefore each grain of ground coffee will release all the aromas and flavors, delivering a richer, fuller taste.

Intensity switch

This new SENSEO® appliance offers you more choice as it has an extra coffee recipe setting. Next to the long, smooth SENSEO® coffee you can choose as well to make a strong, smaller SENSEO® coffee by simply switching the knob. Boost your coffee for moments where only an extra strong, short SENSEO® coffee will do.

Delicious coffee crema layer

The fine SENSEO® coffee selection and the unique SENSEO® brewing system make sure that your perfect cup of coffee always comes with a rich and delicious coffee foam layer - proof of premium taste and quality.

Decalcification indicator

The Philips coffee machine will remind you when to descale your appliance. Regular descaling with the special developed SENSEO® descaler ensures the best taste of your coffee and prevents limescale from tap water.

Adjustable real metal spout

By raising or lowering the spout you can adjust your Philips SENSEO® coffeemaker to the size of your favorite cup or mug

Variety of blends and flavors

SENSEO® offers you a large variety of coffee blends and flavors, each with its own distinctive taste to fit your personal preference.

1 or 2 cups at the same time

This SENSEO® coffeemaker prepares one or two cups of your delicious SENSEO® coffee in less than a minute.

Automatic shut-off

Your SENSEO® coffee machine automatically switches off after 30 minutes, allowing you to save energy.

Direct start

Direct start to select your coffee while machine heats up

Specifications

Design

- Color: Silver

Finishing

- Material drip tray: Metal
- Material of spout: Stainless steel

Country of origin

- Made in: Poland

General specifications

- Coffee strength settings: 2
- Compatible coffee serving: Coffee pods
