

iTap Magnetic 2

Air Vent Mount

The Tap Magnetic 2 air vent mount is a sleek and compact magnetic mounting solution that holds your smartphone securely while you drive. Designed for maximum convenience, the iTap 2 features two rare-earth magnets that provide a strong hold for all smartphones and case combinations. A Metal Plate Kit includes small and large metal plates and a Protective Film that attaches directly on the back of the smartphone or case, and does not interfere with wireless charging when positioned accordingly. Install iTap Magnetic 2 on the air vent of any vehicle with a

Twist Lock that tightens securely onto air vent blades. Once the mounting system is installed, simply tap the smartphone on the Magnetic Mounting Head to secure the device through the entire driving journey. Find the ideal viewing angle with a rotating ball joint that swivels for added convenience. The iTap Magnetic 2 air vent mount from iOttie is powerful and compact to safely enhance the driving experience on any road.
