HP printers, MFPs, and all-in-ones are easy to use and deliver crisp, brilliant prints. Choose from a broad portfolio of stylish, innovative products that help simplify the way work gets done. Get a great value with proven HP quality and reliability.

The best choice in business printing

HP offers a wide variety of devices to meet all types of business needs, whether you're telecommuting from your home office, managing a busy branch office, or running a large enterprise department. Rely on cost-effective, dependable devices from the printer brand you trust.

Ease of use. HP devices just work, with intuitive user interfaces and sleek, simple designs that fit right into your office environment. Installation is quick, with no product assembly required.

Stunning print quality at blazing fast speeds. Consistent, excellent output will make your business shine. HP LaserJets deliver crisp, clean text and print-shop quality color. HP OfficeJet and PageWide devices produce professional color documents that resist fading, water, and highlighter smears¹—for a low cost per page.

Great value. HP devices are solidly built and reliable for the long haul, with competitive purchase prices and low operation costs. Some devices offer high-capacity cartridges for even more affordable printing.

Simple HP JetAdvantage Mobile Print Solutions.³ Many HP devices are Mopria certified for easy printing from your smartphone, tablet, or laptop without the need for a special app or software.⁴ Some products come with award-winning peer-to-peer Wi-Fi Direct® printing and touch-to-print (NFC) technology,⁵ and you can add these capabilities to many existing devices with mobile printing accessories.

Best-in-class security.⁶ HP Pro and Enterprise devices offer a variety of embedded security features and optional solutions to protect hardware and safeguard data. Defend your network with self-healing technologies that guard against complex security threats. Apply efficient, fleet-wide security policies to protect all your HP print devices with optional HP JetAdvantage Security Manager.⁷

Innovative HP JetAdvantage Workflow Solutions. Capture, store, access, and deliver the content you need—all while helping to reduce costs. The robust image preview feature and Quick Sets on HP Enterprise MFPs save time. Zoom in and inspect scanned jobs and add, delete, reorder, or rotate pages, right at the device. At the touch of a button, launch complicated workflows to a variety of destinations.

Versatile HP JetAdvantage Management Solutions. Many HP Pro products and all Enterprise products are supported by HP Web Jetadmin (WJA).⁸ Improve fleet uptime by centrally monitoring and controlling devices—and assess and optimize usage with a variety of reporting tools. For simple one-to-one device management, use the HP Embedded Web Server (EWS). The HP Universal Print Driver (UPD) makes it easy to connect and print.⁹

Features to help reduce environmental impact. Many HP devices are ENERGY STAR® certified and include energy-saving features such as Instant-on Technology and Auto-On/Auto-Off Technology.¹⁰ Because HP OfficeJet and PageWide products have no fuser, they typically have low energy consumption.

HP JetIntelligence More. Pages, Performance, and Protection.

Select new HP LaserJet devices come with Original HP Toner cartridges with JetIntelligence. Print more professional-quality pages than ever before,² count on peak printing performance every time, and get protection against counterfeits with innovative anti-fraud technology.

Select the right device

The right imaging and printing product can save you time and help cut costs. Yet with all of the available HP devices, how do you choose? See [page 4](#) for questions to help you select devices for small and medium office, branch office, or home office. See [page 15](#) for questions to ask when choosing enterprise-class devices.

How to select the right device for your small office

When choosing an HP device for a small or medium office, branch office, or home office, start by answering the following questions.

USERS

1-5 users

or

3-10 users

TYPE OF DOCUMENTS

Mono

or

Color

FUNCTION

Printer

or

MFP/AiO

SPECIALTY DEVICES

Wide-format

or

Mobile

How many users will print how many pages each month? Consider:

- The recommended number of users
- The recommended monthly page volume (RMPV)¹¹
- The device's listed print speeds

What kinds of documents do you primarily print?

- HP OfficeJet devices deliver professional everyday document quality at a low cost-per-page
- PageWide devices offer professional everyday documents at HP's lowest print operating costs,¹² along with faster print speeds¹³ and lower energy consumption¹⁴ than in-class laser printers
- HP LaserJets deliver print-shop quality output for impressive color marketing materials
- Monochrome LaserJets offer HP's best value for black-only prints
- Letter/A4 devices support a variety of standard paper sizes; wide-format devices support documents up to tabloid/A3
- HP OfficeJet Mobile printers and all-in-ones are compact and lightweight for easy printing or scanning on the go

Do you need to scan, copy, or fax? Do you require document workflow or storage solutions?

- If you only need to print, choose an HP OfficeJet, PageWide, or LaserJet printer
- If you're looking for scanning, copying, and faxing capabilities, you need a multifunction product (MFP) or all-in-one (AiO)
- Devices with control panel business apps allow you to view and print directly from the Web
- HP OfficeJet Pro all-in-ones and LaserJet or PageWide Pro MFPs support core workflows, such as scanning to email or network folders—and some products support optional workflow solutions such as HP Quick Forms, HP Scan to Cloud, and eStorage such as Google™ Docs or Box.net

Do you need to share the device?

- Most HP devices offer Ethernet or wireless networking
- Devices that support mobile printing let users print from their smartphone or tablet—easily print from a Mopria-certified device;⁴ print on the go with HP ePrint;¹⁵ print from an iPad®, iPhone®, or iPod touch® with Apple® AirPrint®;¹⁶ or choose Wi-Fi Direct, NFC touch-to-print, or Bluetooth® Low Energy for secure peer-to-peer wireless printing without connecting to the network⁵
- Devices with an easy-access USB offer quick printing from or scanning to a thumb drive

What kind of management and security support do you require?

- Networked devices can be individually managed via the HP Embedded Web Server (EWS)
- If you require remote management of core configuration and security options, choose a device that's supported by HP Web Jetadmin at the essential level⁸
- Increase security, cut costs, and restore control with cloud-based HP JetAdvantage Private Print¹⁷

How to select the right device for your enterprise

When choosing an imaging and printing product for your company's large work team, workgroup, or department, you should consider some additional questions.

USERS

TYPE OF DOCUMENTS

FUNCTION

MANAGEMENT

Consider devices designed for 3-10 users

Many of the HP OfficeJet, PageWide, and LaserJet Pro devices listed on [pages 7-8](#) and [11-12](#) are an excellent choice for small work teams or for remote branches in enterprise environments. They offer Pro level security and manageability at an affordable price.

How many users will print how many pages each month? Consider:

- The recommended number of users
- The recommended monthly page volume (RMPV)¹¹

What kinds of documents do you primarily print?

- HP PageWide devices offer HP's lowest print operating costs¹² and lowest environmental impact,¹⁴ while delivering professional everyday document quality at HP's fastest speeds¹³
- HP LaserJets deliver leading laser performance, with print-shop quality output for impressive color marketing materials
- Monochrome LaserJets offer HP's best value for black-only prints
- Letter/A4 devices support a variety of standard paper sizes; wide-format devices support documents up to tabloid/A3
- Enterprise finishing options may include mailboxes, stapling, hole-punching, or booklet-making

How sophisticated are your workflow needs?

- If you only need to print, choose an HP OfficeJet, PageWide, or LaserJet printer
- HP Pro MFPs support core workflows, such as scanning to email or network folders
- Enterprise MFPs offer more send-to destinations, Quick Sets for launching one-touch workflows, and superb image preview and enhancement on a large, color touchscreen
- Flow MFPs have more advanced scanning, processing, and routing capabilities

What level of IT management integration do you require?

- HP Enterprise devices fit best in IT-managed environments, with advanced security controls like user authentication and PIN-enabled printing; HP OXP-enabled integration for hundreds of available partner solutions; advanced HP Web Jetadmin support for fleet management, monitoring, and reporting;⁸ and upgradeable HP FutureSmart firmware²⁰
- HP Pro printers or MFPs are a good fit for lightly managed environments such as branch offices, offering essential management of core features via HP WJA
- All Enterprise and some Pro devices are supported by HP Universal Print Driver⁹

Meet your team's needs with the right type of device

HP LaserJet Pro printers and MFPs—Reliable and easy to use, these laser devices deliver print-shop-quality color documents, with LaserJet Pro MFPs offering the core workflow features many small work teams need. Some are supported by HP UPD and have essential configuration, security, and monitoring features that can be managed through HP WJA.

HP PageWide Pro printers and MFPs—These devices offer the lowest total cost of ownership or cost per color page in their class,¹² along with essential support for HP WJA, UPD, and some solutions. PageWide Pro MFPs add core workflow features. Plus, the HP PageWide Pro series offers faster speeds,¹³ and lower energy consumption than in-class laser printers.¹⁴

HP LaserJet Enterprise printers and MFPs—These workhorse devices support all HP enterprise solutions and offer robust security options along with advanced fleet monitoring, management, and reporting. Choose a LaserJet Enterprise MFP for enhanced workflow features—including embedded scan to Microsoft® SharePoint® on the latest models.

HP PageWide Enterprise printers and MFPs—These devices deliver the lowest cost per color page.²¹ Get enterprise manageability, security, and extensibility, along with faster speeds (General Office mode),²² and best-in-class energy efficiency.²³ PageWide Enterprise MFPs offer enhanced workflow features.

HP LaserJet and PageWide Enterprise Flow MFPs—Streamline workflows with built-in optical character recognition (OCR), fast two-sided, single-pass scanning, HP EveryPage to avoid missed pages, a pull-out external keyboard for easy data entry, and a host of other features.

- ¹ Fade resistance based on paper-industry predictions for acid-free papers and Original HP inks; colorant stability data at room temperature based on similar systems tested per ISO 11798 and ISO 18909. Water resistance based on HP internal testing, using paper with the ColorLok® logo. For details, see hp.com/go/printpermanence.
- ² Based on ISO/IEC 19752 and 19798 cartridge yields for the following Original HP LaserJet Toner cartridges: 131A compared with 201X, 507A compared with 508X, 55X compared with 87X, 80X compared with 26X, 305A/X compared with 410X. For more information, see hp.com/go/learnaboutsupplies.
- ³ Local printing requires mobile device and printer to be on the same network or have a direct wireless connection. Wireless performance is dependent on physical environment and distance from access point. Wireless operations are compatible with 2.4 GHz operations only. Remote printing requires an Internet connection to an HP web-connected printer. App or software and HP ePrint account registration may also be required. Wireless broadband use requires separately purchased service contract for mobile devices. Check with service provider for coverage and availability in your area. See hp.com/go/mobileprinting for more details.
- ⁴ Mopria-certified HP printer and mobile device must be connected to the same wireless network or have a direct wireless connection. Performance is dependent on physical environment and distance from the wireless access point. Wireless operations are compatible with 2.4 GHz routers only.
- ⁵ For Wi-Fi Direct® printing, mobile device needs to be connected directly to the Wi-Fi signal of a Wi-Fi Direct supported MFP or printer prior to printing. Depending on mobile device, an app or driver may also be required. Wi-Fi Direct is a registered trademark of Wi-Fi Alliance®. For touch-to-print, mobile device must support NFC-enabled printing. For more information, see hp.com/go/mobileprinting.
