Wyse X class mobile thin clients
Secure, accessible mobile thin computing...

...has arrived

Wyse X class thin clients.
All you need to know. Here.
Introducing the Wyse X class mobile thin clients

Now you can get all of the security you crave – with all the access you need. Wherever you choose to work.

Choose from two equally slim-line versions; the new Wyse X90CW mobile thin client with its compact 11.6” LED backlit display, and the Wyse X50L, X90LW and X90LeW mobile thin clients with stunning 15.4” widescreen displays - ideal for presenting rich multimedia.

Featuring the power of Microsoft Windows XP Embedded & Windows Embedded Standard, and the security and flexibility of Wyse Enhanced SUSE Linux (Wyse X Class L Family only).

Here’s the full range pictured below:

<table>
<thead>
<tr>

<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Wyse X90CW</td>
<td>Small form factor, high performance mobile thin client with Windows Embedded Standard.</td>
</tr>
<tr>
<td>Wyse X50L</td>
<td>15.4” screen mobile thin client with Wyse Enhanced SUSE Linux.</td>
</tr>
<tr>
<td>Wyse X90L</td>
<td>15.4” screen mobile thin client with Windows XP Embedded.</td>
</tr>
<tr>
<td>Wyse X90Le</td>
<td>15.4” screen mobile thin client with Windows XP Embedded. Built-in smartcard reader and BlueTooth networking.</td>
</tr>
<tr>
<td>Wyse X90LW</td>
<td>15.4” screen mobile thin client with Windows Embedded Standard.</td>
</tr>
<tr>
<td>Wyse X90LeW</td>
<td>15.4” screen mobile thin client with Windows Embedded Standard.</td>
</tr>
</tbody>
</table>
Wyse X class mobile thin clients feature all the benefits of other Wyse thin clients in the range including the absence of hard drives. Which is of particular benefit to mobile workers who regularly work with sensitive data in insecure environments because with Wyse, they can work on the move with all their data safely stored and accessed from secure virtual servers - eliminating the risk of data-loss from stolen or mislaid laptops.

Take a tour of the Wyse X class range features here
The Wyse X class mobile thin clients feature high-performance energy conserving processors: Intel Atom Z520 in the Wyse X class C Family and Via C7-M ULV in the X class L Family, giving your mobile users all the processing power and flexibility they need including rich multimedia playback.

Choose between the Wyse X class C family with a crisp 11.6" widescreen display, and the Wyse X class L Family with their larger 15.4" widescreen displays. Both delivering excellent on-screen performance for graphics applications and multimedia presentations.

No hard drives. No worries.
Their hard drive-free design contributes to a far longer lifespan than other comparative laptops. And of course no hard drive means no data whatsoever is lost or compromised if a Wyse X class is stolen or mislaid.

Finally, Wyse X class mobile thin clients pack all these features and functionality into slim, robust designs, ideal for today’s hard working and pressurized mobile workers.

Intel Atom Z520
1.33GHz processor
Intel’s smallest and lowest power processor to date, the Intel® Atom™ processor has been specifically designed for the new wave of compact, lightweight, high performance internet devices like the Wyse X class C Family.

VIA C7-M ULV
1.2GHz processor
With its extreme power efficiency for full computing on the go, the VIA C7-M ULV processor has been specifically designed for next generation mobile thin clients such as the Wyse X class L Family.
**X class C Family Connectivity** Wyse X90CW thin client

**Well connected**
- Integrated wireless 802.11 b/g/n
- One VGA-type video output
- Two USB 2.0 ports
- Kensington Lock Slot
- Audio In: 1/8-inch mini jack, 8 bit stereo microphone
- Media slot 4-in-1 (MS/MS-Pro/SD/MMC) for additional storage
- Audio Out: 1/8-inch mini jack, full 16 bit stereo
- One USB 2.0 port
- 10/100 Base-T Ethernet port
- Built-in 1.3 Mega Pixel Camera and Microphone
Wyse X50L, X90L, X90Le, X90LW and X90LeW mobile thin clients

Well connected
- Built-in WiFi 802.11 b/g/n
- Audio Out: 1/8-inch mini jack, 16 bit stereo
  Internal mono speaker
- Audio In: 1/8-inch mini jack, 8 bit stereo microphone
- Three External USB 2.0 ports (right)
- 10/100/1000 Base-T Gigabit Ethernet port
- One VGA-type video output
- SD Card Slot
- ExpressCard slot
- Kensington Lock Slot
- One DVI-D Port
- One external USB 2.0 port (left)
Going Green with Wyse Thin Computing

Through our EarthSmart Computing initiative we are committed to helping organizations implement a greener computing strategy - one that delivers a more efficient and productive computing experience for your users with a positive effect on energy wastage, heat and carbon emissions.

Green Power

All Wyse X class mobile thin clients pack a considerable punch with their green credentials. From reduced manufacturing impact and end-of-life recycling waste, to as little as 18 watts energy consumption, deploying Wyse X class mobile thin clients to your mobile and remotely based workers will enable your organization to achieve a lighter carbon footprint.

**Management Software**  Wyse Device Manager

**Thin computing remote management. Made easy.**

Wyse Device Manager (WDM) provides comprehensive, enterprise-wide management for Wyse X class mobile thin clients. A licence for WDM Workgroup Edition is included with every Wyse X class model. This may be upgraded to WDM Enterprise Edition for an additional charge. **Key features include:**

| Security                          | ● HTTPS Based Imaging / Updates  
|                                  | ● Fully Encrypted Network Traffic  
|                                  | ● Multi-user Admin Access (MS AD) Support  
| No-Hassle Deployment            | ● Complete Device Imaging / Patching / Updates  
|                                  | ● Bandwidth Throttling for Efficiency / Reliability  
|                                  | ● Software Updates and Add-ons  
| Device Administration and Monitoring | ● Device Health Status / Reporting  
|                                  | ● Remote Shadowing / Control  
|                                  | ● Default Device Configuration  
| Scalability                      | ● Distributed Architecture  
|                                  | ● SQL / MSDE Support  
|                                  | ● Multiple Remote Repository Support  
| Complete Asset Visibility        | ● Automated Discovery  
|                                  | ● Detailed Hardware Asset information  
|                                  | ● Installed Software Asset information

Wyse TCX delivers an amazing user experience in one software suite.

Wyse TCX is our new software suite which enriches the user experience by removing the limitations previously associated with thin clients. It enhances, not replaces, key protocols like ICA/HDX and RDP adding key features to make each more valuable. With Wyse TCX users receive the best PC experience available on a thin computing platform.\(^1\), \(^2\)

**Wyse TCX Multi-display**
Ensures application windows and dialog boxes are multi-monitor aware when using more than one monitor.

**Wyse TCX USB Virtualizer**
Enables plug and play peripheral support for virtual desktop environments.
- Redirect and use local USB devices in virtual desktops.
- Deploy virtual desktops to knowledge workers with special device access needs.
- Enable a broad set of USB peripherals including webcams and headsets.

**Wyse TCX Multimedia**
Streamlines the delivery of the multimedia stream to the local client for a rich user experience within a thin computing architecture.
- Accelerates MPEG1, MPEG2, WMV, MPEG4 Part 2, AC3, AAC, MP3, WAV, WMA media types.
- Collaborative Processing Architecture enhances server scalability and network utilization by off-loading multimedia rendering to the client.

**Wyse TCX Flash Acceleration**
Wyse TCX Flash Acceleration helps thin client users to experience improved Flash video performance. While the Flash player continues to run server-side, the resulting images are transcoded and redirected to the client for fast rendering. The technology allows for greater control of frame rate and compression and supports enhanced playback of YouTube style flash videos in Internet Explorer.

\(^1\) Subject to licence fee.\(^2\) Support is dependant on host Operating System.
Removing the barriers of network latency

Wyse Virtual Desktop Accelerator (VDA) enables virtualized desktop and thin computing environments to be deployed to areas where network latency has, to date, presented operational barriers. Now, with Wyse VDA, more users can receive the full benefits of Wyse thin computing – with the best PC experience over virtualized desktops.

Wyse VDA is a software-only solution for Wyse thin clients and supported PCs that delivers the best user experience for the allocated network bandwidth by neutralizing the effects of network latency and packet loss. Making ‘thin’ suitable for more remote-site, branch, or field-based users. Wyse VDA works with instead of replacing existing RDP and ICA protocols, accelerating them by up to 20 times on networks faced with latencies up to and beyond 300ms, and at least 768kbps bandwidth.

At a glance features:

- Software-only acceleration of virtual desktops and applications
- Accelerates existing Citrix ICA and Microsoft RDP protocols
- Works on WANs and ‘fat, long pipes’
- Accelerates connections to Citrix XenApp, Citrix XenDesktop, VMware View and Microsoft Terminal Server and Microsoft Hyper-V VDI
- Enhances Wyse TCX software suite functionality across wide-area networks
- Enables Wyse Collaborative Processing Architecture across wide-area networks
- Administrator console provides control of maximum bandwidth per connection
- Leverages built-in security of underlying protocols (128-bit encryption for RDP and ICA).
Wyse Enhanced SUSE Linux Enterprise is the industry’s only enterprise-quality Linux operating system, created by combining the secure, flexible and market-leading usability of Novell’s SUSE Linux Enterprise with Wyse’s thin computing leadership and innovation in user experience and management.

**Management**
- Deploying Wyse Enhanced SUSE Linux Enterprise is easier than any other thin-Linux distribution period. Utilizing Wyse’s proven auto-configuration and update approach - management tasks can be managed centrally without additional management software. All that’s required is an FTP server and a single text-based configuration file. Wyse Device Manager is also supported for more hands-on management.
- With Wyse Enhanced SUSE Linux Enterprise, IT managers can lock down applications, disable unnecessary configuration options, and provide read-only access capabilities to minimize data loss in case of theft, corruption, or virus attacks.

**Flexible. Safe. Assured**
- Wyse Enhanced SUSE Linux Enterprise provides a logical next step for Wyse ThinOS users requiring a flexible, secure and adaptable operating system with local web-browsing capability.
- Enterprise-grade security is upheld by Wyse Enhanced SUSE Linux Enterprise’s read-only file system.
- Wyse Enhanced SUSE Linux Enterprise is the ‘Safe Linux’ indemnified jointly by Novell and Microsoft.

The only enterprise-quality Linux...that’s optimized for thin computing
Running Microsoft Windows XP Embedded on Wyse thin clients gives IT departments the ability to support Citrix ICA, Microsoft RDP and VMware View environments and deploy fully functional desktops with better manageability and significantly lower total cost of ownership than personal computers.

Wyse Enhanced Microsoft Windows XP Embedded-based thin clients can run 32 bit Microsoft Windows applications, either locally or from servers located on the network, with inbuilt flexibility to add and support a host of desktop peripherals with permission from the IT administrator.

**Secure write-protected thin desktops**

This robust and flexible operating system is further enhanced by the Wyse file-based Write Filter that enables you to protect the file system image from accidental changes or user customization.

On rebooting, the thin client simply returns to the required file system image state.

**Wyse customized image support**

Wyse technicians are able to help you customize Windows XP Embedded to your exact requirements and create bespoke system images for subsequent enterprise-wide deployment, management and update through Wyse Device Manager.

**Contact your Wyse Partner for further details.**
Running Windows Embedded Standard (WES), the latest and most advanced embedded OS from Microsoft, on Wyse thin clients gives IT departments the ability to deploy fully functional desktop clients with better manageability and significantly lower total cost of ownership than personal clients. Wyse WES-based thin clients can run 32 bit Microsoft Windows applications, either locally or from servers, with the inbuilt flexibility to add and support a host of desktop peripherals with permission from the IT administrator.

Secure write-protected thin desktops

This robust and flexible operating system is further enhanced by the Wyse file-based Write Filter that enables you to protect the files, folder and/or entire volumes from accidental changes or user customization. On rebooting, the thin client simply returns to its original state thus preventing any possible damaging modification either from users or malware.

Wyse customized image support

Wyse technicians are prepared to help you customize Windows Embedded Standard to your exact requirements in order to create custom-built images for subsequent enterprise-wide deployment, management and update through Wyse Device Manager.

Contact your Wyse Partner for further details.

**Wyse X class L Family Specifications:** Wyse X50L, X90L, X90Le, X90LW and X90LeW mobile thin clients

### Hardware specifications

**Processor**
VIA C7-M ULV 1.2GHz

**Memory**
X50L: Wyse Enhanced SUSE Linux: 1GB Flash / 1 GB RAM  
X90L / X90Le: Windows XP Embedded: 1GB Flash / 1 GB RAM  
X90LW / X90LeW: Windows Embedded Standard: 2GB Flash / 1GB RAM

**I/O peripheral support**
- 4 USB 2.0 ports (3 left/1 right)  
- 1 VGA port 15-pin D-Sub for external monitor (clone mode)  
- 1 DVI-D port for external monitor (clone mode)  
- SD card slot for additional storage  
- 1 Express 34/54 slot (PCI-E based for additional performance)

**Networking**
10/100/1000 Base-T fast Ethernet (RJ-45)  
Integrated Wireless 802.11b/g/n

**Display**
15.4” Widescreen WXGA TFT LCD 1280x800

**Audio**
- Line Out for external speakers  
- Mic In for external microphone  
- High definition audio

**Speakers**
2 internal stereo speakers

**X90Le and X90LeW includes**
- Internal Smart Card reader / Citrix Password Manager  
- Bluetooth for connection to selected mobile phones

### Physical characteristics
- Width 14.12” (360 mm)  
- Depth 10.23” (260 mm)  
- Height 1.5” (39.7mm)  
- Weight - 5.6lbs (2.5Kgs) with 6 cell battery

**Battery**
- Standard 6 cell battery  
- Optional 9 cell battery available  
- Energy consumption: 18 watts

**Security**
- Kensington Lock slot

**Keyboard and mouse**
- Keyboard  
- Touchpad

**Keyboard layouts supported**
- French, German, Italian, Norwegian, Spanish, Swedish, UK, US, US international

**Warranty**
- 1 year limited warranty  
- 6 month battery warranty

**Safety Certifications**
cUL (UL/EN 60950-1), TUV (EK1-ITB 2000)  
EMC:CE (EN 55022, EN 55024), FCC (Part 15B)  
Environment: RoHS, WEEE
# Wyse Enhanced SUSE Linux Enterprise Software specifications

## Firmware features
- SUSE Linux Enterprise 10 SP2 with Kernel 2.6
- Compatible with SLED 10 SP2 Add-ons
- Automatic Central Configuration (text-based INI files)
- Automatic Upgrades (FTP, HTTP, HTTPS)
- CUPS, LPR/LPD, Ghostscript and Samba print support
- Firefox browser standard
- Citrix ICA 10.32 client
- RDODESKTOP 1.6 client
- XDMCP
- SSH Support
- Flash Player
- JAVA support
- Ericom PowerTerm® Terminal Emulation
- Cisco, Juniper, Nortel, IPSEC VPN Support (Add-ons)
- ThinPrint Support (Add-on)

## Server OS Compatibility/Support
- Citrix XenApp (formerly Citrix Presentation Server), Citrix XenDesktop
- VMware View
- UNIX/Linux servers
- Windows Server 2000
- Windows Server 2003

## Keyboard / Language support
- 100+ Keyboard Layouts supported locally (English, German, Spanish, French, Italian, Dutch, Chinese, Japanese, Turkish)
- Language: English (Default), add-ons available for other languages (English, German, Spanish, French, Italian, Dutch, Chinese, Japanese, Turkish)

## Security
- Compressed read-only file system
- Wireless 802.1x security support
- Ability to lock down terminal and access to specific applications per user

## Management
- Automatic configuration and upgrading without need for Device Management software
- Also, integration with Wyse Device Manager (WDM) if hands-on management and asset-tracking is desired:
  - Complete image upgrade
  - Wake terminal remotely (Wake-on LAN)
  - Terminal configuration (IP information, name, etc.)
  - Remote screen shadowing of entire desktop (VNC)
  - Asset management and Reporting

## Wireless support
- WEP, WPA Personal, WPA2 Personal, WPA Enterprise, WPA2 Enterprise Authentication support
- PEAP: PAP/MSCHAP/MSCHAPV2 support
- TLS: PAP/MSCHAP/MSCHAPV2/GTC support

## Wyse TCX Suite
- Some component technologies of the Wyse TCX Suite are supported (not all).
## Microsoft Windows XP Embedded SP3 Software specifications

| Firmware features | Reporting, Asset management  
|                   | SMS  
|                   | Altiris  
| Wireless support | 802.11 b/g/n support with internal wireless adapter  
|                   | WPA-2, WEP, WPA wireless authentication  
|                   | Supports wireless adapters from: Cisco, D-Link, Netgear, US Robotics, Trendware  
| Plug-ins          | Adobe Flash Player  
|                   | Adobe Shockwave  
| Wyse TCX Suite    | Advanced support for innovative Wyse TCX Suite virtualization software that both works with and enhances ICA and RDP (instead of replacing them) featuring:  
|                   | • Wyse TCX Multimedia - the power to run rich multimedia files formats utilizing Wyse Collaborative Processing Architecture (CPA) that intelligently redirects the necessary processing tasks between the client and the server.  
|                   | • Wyse TCX Multi-Display - ensures that windows and dialogue boxes behave the way users expect when using more than one monitor.  
|                   | • Wyse TCX USB Virtualizer - makes client attached USB devices visible to virtual desktops and applications, with full IT control.  
|                   | • Wyse TCX Rich Sound - enables virtual desktops and applications to receive and transmit high quality audio without compromise.  
|                   | • Wyse TCX Flash Acceleration - helps users of thin clients to experience improved Flash performance.  

| Memory | 1GB of flash memory and 1GB of RAM  
| Server OS Infrastructure Support | Citrix XenApp / Citrix Presentation Server  
|                   | Citrix XenDesktop  
|                   | VMware View  
|                   | Microsoft Windows Terminal Server 2003 & 2008  
| Set-up and Configuration | Boot from local flash  
| Microsoft Windows XP user interface languages: U.S. English, French, German, Spanish, Optional add-ons  
| Keyboard language support | U.S. English (standard), French, German, Spanish, U.K. English, 40 other languages included  
| Protocol Support | TCP/IP, DNS, DHCP, PXE  
| Management | Remote management, configuration, and upgrades through Wyse Device Manager  
| Complete image upgrade  
| Wake terminal remotely (Wake-on LAN)  
| Terminal configuration (IP information, name, etc.)  
| Remote screen shadowing of entire desktop (Wyse Remote Shadow) |  
| Report Spec / CR 120110 |  

**Firmware features**
- Microsoft Windows XP Embedded SP3
- Microsoft Internet Explorer 7.0 resident: HTML, JavaScript, XML, Active X
- Sun JRE, Media Player, Citrix Web Interface
- RDP 6.0.xx resident
- Citrix ICA 11 resident
- VMware View Client Resident
- Terminal Services Advanced Client (TSAC)
- Ericom PowerTerm® Terminal Emulation provides 30-plus terminal emulations

**Memory**
- 1GB of flash memory and 1GB of RAM

**Server OS Infrastructure Support**
- Citrix XenApp / Citrix Presentation Server
- Citrix XenDesktop
- VMware View

**Set-up and Configuration**
- Boot from local flash
- Microsoft Windows XP user interface languages: U.S. English, French, German, Spanish, Optional add-ons

**Keyboard language support**
- U.S. English (standard), French, German, Spanish, U.K. English, 40 other languages included

**Protocol Support**
- TCP/IP, DNS, DHCP, PXE

**Management**
- Remote management, configuration, and upgrades through Wyse Device Manager
- Complete image upgrade
- Wake terminal remotely (Wake-on LAN)
- Terminal configuration (IP information, name, etc.)
- Remote screen shadowing of entire desktop (Wyse Remote Shadow)
# Microsoft Windows Embedded Standard Software specifications

## Firmware features
- Microsoft Windows Embedded Standard (WES)
- Microsoft Internet Explorer 7.0 resident: HTML, JavaScript, XML, Active X
- Sun JRE, Media Player, Citrix Web Interface
- RDP 6.1 resident
- Citrix ICA 10 resident
- Ericom PowerTerm® Terminal Emulation
  - provides 30-plus terminal emulations
- Citrix XenDesktop
- Windows Media Player 11

## Server OS Infrastructure Support
- Citrix XenApp / Citrix Presentation Server
- Citrix XenDesktop
- VMware View

## Application Framework
- .Net 3.5

## Security
- File Based Write Filter (FBWF)
- Microsoft Baseline Security Analyzer (MBSA)

## Set-up and Configuration
- Boot from local flash
- Microsoft Windows WES user interface languages: U.S. English, French, German, Spanish, Optional add-ons

## Keyboard language support
- U.S. English (standard), French, German, Spanish, U.K. English, 40 other languages included

## Protocol Support
- TCP/IP, DNS, DHCP, PXE

## Management
- Remote management, configuration, and upgrades through Wyse Device Manager
- Complete image upgrade
- Wake terminal remotely (Wake-on LAN)
- Terminal configuration (IP information, name, etc.)

## Wireless support
- 802.11 b/g/n support with external wireless adapter or internal wireless adapter option
- WPA-2, WEP, WPA wireless authentication
- PEAP-GTC wireless authentication protocol with optional Juniper Odyssey Client
- Supports PC-Card wireless adapters from: Cisco, D-Link, Netgear, US Robotics, Trendware

## Plug-ins
- Adobe Flash Player
- Adobe Shockwave
- Microsoft Silverlight

## Wyse TCX Suite
- Advanced support for innovative Wyse TCX Suite virtualization software that both works with and enhances ICA and RDP (instead of replacing them) featuring:
  - Wyse TCX Multimedia - the power to run rich multimedia files formats utilizing Wyse Collaborative Processing Architecture (CPA) that intelligently redirects the necessary processing tasks between the client and the server.
  - Wyse TCX Multi-Display - ensures that windows and dialogue boxes behave the way users expect when using more than one monitor.
  - Wyse TCX USB Virtualizer - makes client attached USB devices visible to virtual desktops and applications, with full IT control.
  - Wyse TCX Rich Sound - enables virtual desktops and applications to receive and transmit high quality audio without compromise.
  - Wyse TCX Flash Acceleration - helps users of thin clients to experience improved Flash performance.
Wyse X class C Family mobile thin clients

Secure mobile computing. Without compromise.

With Wyse X class C Family mobile thin clients, you can take the benefits of Wyse thin computing with you wherever you go. Deploying secure, accessible and manageable laptops has never been easier - as dependant on the model - user data is either stored on central servers or locally on a HDD for offline working.

Powered by Intel Atom Z520 1.33 GHz processors these compact, high performance mobile thin clients allow more users than ever before to gain secure access to corporate networks when and wherever they need to.

Wyse X class C Family mobile thin clients are optimized for Citrix XenApp, Citrix XenDesktop, Microsoft Terminal Server and VMware View environments.

Compact high performance mobile thin client.

Wyse X class C Family mobile thin clients are packed with features that would put some fat-laptops to shame. Busy mobile workers and traditional ‘road-warriors’ alike will appreciate their compact slim profile, light weight, crisp LED backlit display and long-lasting 8 hour battery.

Features

Performance
New generation Intel Atom Z520 1.33GHz processor delivering high performance with low power requirements (15 watts).

Ultra-mobile
Slim, compact design weighing just 3.2lb that's ideal for busy mobile workers and classic ‘road-warriors’ alike.

Rich user connectivity
Built-in webcam, integrated wireless b/g/n, Bluetooth 2.1 and support for 3G cards provide everything needed for rich user interactivity, flexible connectivity and secure mobile access.

Green
Draws under 15 watts of power. Small form-factor reduces the impact of manufacturing and end-of-life disposal on the environment.

Virtualization
Users benefit from built-in support for the Wyse TCX Suite created to deliver the best user experience over virtualized desktop environments.

Wyse X class L Family mobile thin clients
Secure, accessible mobile thin computing.

Summary Data

## Wyse X class mobile thin clients

### Secure computing. Wherever you need it.
Wyse X class L Family mobile thin clients feature all the benefits of other Wyse thin clients in the range - such as no hard drives - of particular benefit to the ever-increasing exposure of sensitive data to insecure environments by mobile workers. As all data stored and accessed via the server, the risk of data-loss through stolen or mislaid laptops is eliminated.

### High performance on the move.
Wyse X class mobile thin clients feature high-performance energy conserving Via C7-M ULV processors, giving your mobile users all the processing power and flexibility they need including rich multimedia playback. 15.4” widescreen displays contribute to delivering excellent performance for graphics applications and multimedia presentations.

### No fans. No hard drives. No worries.
Their fanless, hard drive-free design means no moving parts and a far longer lifespan than other comparative PC laptops. And of course no hard drive means no data whatsoever is lost or compromised if they’re stolen or mislaid. Finally, Wyse X class mobile thin clients pack all these features and functionality into a slim robust design, ideal for today’s hard working and pressurized mobile workers.

### Choice of operating systems.
Linux environments are catered for with Wyse Enhanced SUSE Linux Enterprise. Windows environments are supported with Microsoft Windows XP Embedded SP3 and Windows Embedded Standard.

---

**Features**

**Performance**
Featuring 1.2Ghz VIA C7-M ULV processors specifically designed for excellent mobile computing and graphics.

**Connectivity**
The Wyse X class family features: Gigabit ethernet networking; secure wireless connectivity; support Smart Cards and VGA or DVI ports for secondary displays as well as a host of USB and audio ports.

**Green**
Just 18 watts energy consumption.

**Management**
Featuring Wyse Device Manager (work group edition) with every Wyse X class thin client.

**Virtualization**
Wyse X class mobile thin clients can be enhanced by the Wyse TCX Suite of virtualized desktop user enhancements.

**Wyse Linux**
Wyse Enhanced SUSE Linux Enterprise is the ‘Safe Linux’ indemnified jointly by Novell and Microsoft.

**Windows XP Embedded SP3**
Deploy fully functional desktop computers, with better manageability with the ability to create bespoke system images.

**Windows Embedded Standard**
The latest and most advanced embedded operating system from Microsoft.
