

Support 4K60 HDR Gaming — Perfect for PS4 Pro and Xbox One S/X.

LIVE GAMER PORTABLE *2 PLUS* | GC513

AVerMedia Live Gamer Portable 2 PLUS (GC513) is a USB plug and play capture card that captures your game-play at up to 1080p60. It works out of the box without the need of driver download or installation. LGP 2 PLUS operates with or without a PC, you'll never be restricted by the environment and miss another epic moment. LGP 2 PLUS also supports your 4-pole 3.5 mm headsets for commentary, even in PC-Free mode, or for monitoring the audio balance. You can easily capture your party chat via the same headset with the Console Party Link. Lastly, the native support for mainstream software makes LGP 2 PLUS the most user-friendly capture card, for beginners and experienced streamers alike.

3 Modes for All Scenarios

Stream Right Away

Unlike other capture devices, LGP2 PLUS is a plug and play capture card, saving you hours fiddling with setups and installations.

Record on the Go

Touring the world with LGP2 PLUS? A tap on the hot button keeps all your road games in the microSD card. No extra hardware required.

Share Directly

Back home, switch LGP2 PLUS to Storage Mode and it acts as a card reader. Never remove and risk losing memory cards again.

Party Chat & Commentary

Frustrated?

You've spent hours plowing through tutorials on how to record party chats while doing commentaries, only to face a jumbled mess of cables.

Game On!

Put on your headset, grab your controller, and let LGP2 PLUS handle the rest. With your focus back in the game, lead your team to victories, and grant your viewers the privilege to see, and hear, how your team dominates your rivals.
