

22" (21.5" viewable) Full HD Multimedia LED Monitor

VX2257-mhd

The ViewSonic® VX2257-mhd is a 22" (21.5" viewable) Full HD price-performance monitor built for gaming and entertainment. Equipped with VESA Adaptive-Sync Technology, this monitor's variable refresh rate capabilities virtually eliminate screen tearing and stuttering for fluid game play during fast-paced action scenes. An ultra-fast 2ms response time and low input lag mode also provides smooth screen performance free from blurring or ghosting. For a game winning competitive edge, a Game Mode hot key optimizes gameplay for FPS, RTS and MOBA. On top of that, a black stabilization function helps you target enemies lurking in the dark, while enabling the monitor to maintain brilliantly rich colors and contrast for total immersion. Flexible connectivity options such as DisplayPort, HDMI, and VGA allow you to connect to your dedicated graphics card and gaming console. The VX2257-mhd features all the perks needed to dominate all your gaming and entertainment quests.

Ultra-Fast Response Time

With an ultra-fast 2ms response time, this monitor delivers smooth images without streaking, blurring or ghosting. For any and all fast-paced action sequences, you'll be glad your monitor reacts as quickly as you do.

Ultra-fast Response Time

AMD FreeSync™ Technology

Leveraging VESA Adaptive-Sync connectivity, this monitor is equipped with AMD FreeSync™ technology that seamlessly synchronizes the frame rate output between your graphics card and monitor. This dynamic refresh rate effectively eliminates image tearing, stuttering, and jerkiness for smooth gameplay.

AMD FreeSync **ON**

Low Input Lag

With decreased signal latency, this monitor gives you the ultimate gameplay advantage. For the fastest communication between the graphics card and your display, a built-in monitor process reducer lowers input to output latency. The low input lag will allow you to react in real time against any competitor for a win every time.

Black Stabilization for Ultimate Visibility

ViewSonic's Black stabilization feature provides heightened visibility and detail by brightening dark scenes. Dominate the competition with enhanced visibility, even in the darkest scenes of a video game.

Game Mode Hotkey and User-customized Settings

A Game Mode hotkey opens pre-calibrated FPS 1, FPS 2, RTS, and MOBA settings that deliver the best blend

of color and technology for specific gaming scenarios. In addition, three customizable “GAMER” settings provide individual user preferences for specific games.

Versatile Connectivity

DisplayPort, HDMI, and VGA inputs give you the freedom and flexibility to connect to your dedicated graphics card and gaming console.

Dual Integrated Speakers

Designed with dual integrated speakers, this monitor combines incredible screen performance with stereo sound for an immersive multimedia experience.

Enhanced Viewing Comfort

Sometimes gaming can be a marathon. With Flicker-Free technology and a Blue Light Filter, this monitor helps to eliminate eyestrain that comes with extended viewing periods - meaning you can outlast and out-game your opponents just as their eyes begin fail them.
