Download

Visit Samsung Galaxy Apps, Google Play Store or the App Store to install the SmartThings app to connect your SmartThings Tracker and smartphone.

Note: You must register and sign in to your Samsung account to use the SmartThings app.

Connect

1 Press and hold the **Power** button until the indicator light turns blue.

2 From your smartphone, tap **SmartThings** ⚙ > **Devices** > **ADD DEVICE** and follow the prompts to connect your device.

Software update

Update to the latest software using the SmartThings app on the connected smartphone.
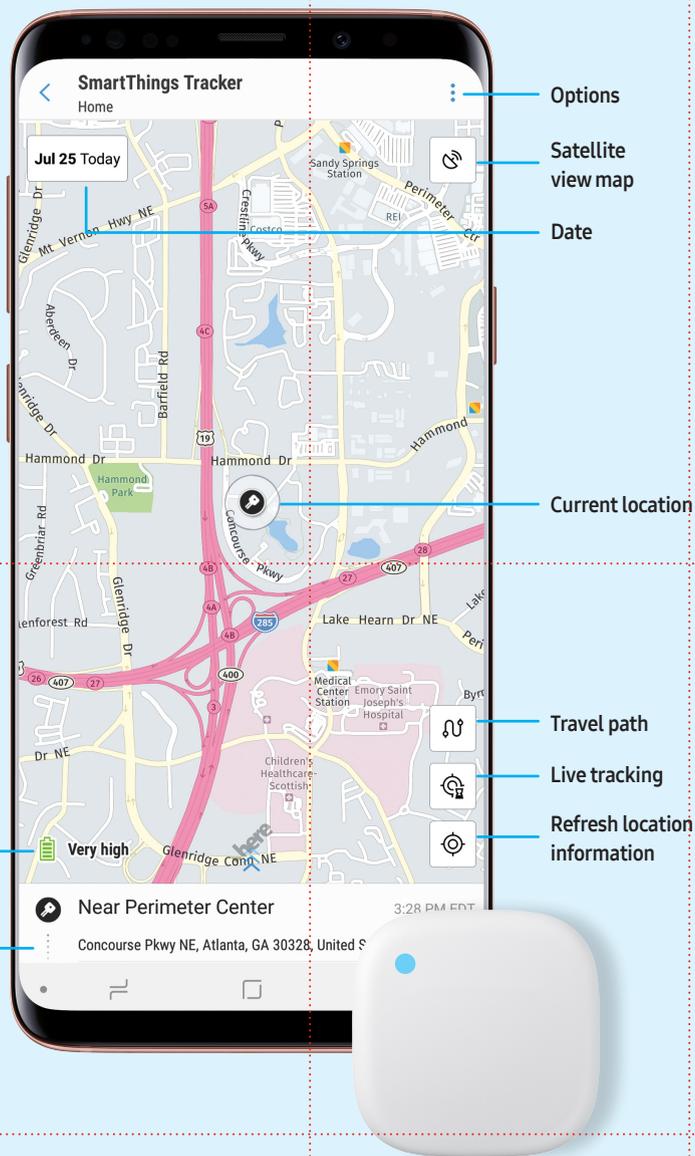

1 From your smartphone, tap **SmartThings** ⚙ > **Devices** and select the **Tracker** > **Options** ⋮ > **Settings** > **Software update**.

2 The indicator light will flash blue during the update. When the indicator light goes off, the update is complete, and the Tracker will reconnect to the smartphone.

Near Perimeter Center
Concourse Pkwy NE, Atlanta, GA 30328, United S   3:28 PM EDT

Locations

1. From your smartphone, tap SmartThings ⁘ > Devices and select the Tracker.

2. The device location will be shown on the map.

3. To view location history, tap detailed location information at the bottom of the screen and drag it upwards.

   Note: Location information may not be accurate depending on surroundings. Factors such as network signal, locating method, and surroundings may affect location accuracy. Service may be affected when you are moving in a vehicle, or when signal is obstructed.

Safe Zones

When you set a safe zone for an area, such as home or school, the Tracker will notify you when it enters or leaves a zone.

1. From your smartphone, tap SmartThings ⁘ > Devices and select Tracker > Options ⋮ > Settings > Manage zones > ADD.

2. Tap Search and enter a keyword for the zone.

3. Enter a name and set a color for the safe zone.

4. Tap Enter/Leave, set zone parameters > OK > SAVE.
