

## APA1601EU | Targus USB Home Charger for Media Tablets

The Targus USB Home charger for media tablets allows users to power and charge their USB powered tablet directly from a wall socket using the original synch and charging cable provided with their tablet.

Once connected, the LED power indicator light lets users know when their device is receiving power.

Interchangeable UK and EU connectors make this solution a travel necessity.

Small and compact, this charger takes up very little space in a travel bag and comes in handy if you need an additional charger for the road.

Power and charge your media tablet from a wall socket using your device's USB cable

Compatible with most USB powered Media tablets

Interchangeable UK and EU connectors for European compatibility

LED power indicator light lets users know when their device is receiving power
