Connecting the AVerVision U70+ to a Computer /Laptop

[Note] When connecting to a MAC computer, use the USB2.0 adapter to connect to the MAC if you found anomalies in the video stream.

Folding and Storing

The flex arm design allows you to freely bend the arm and store the camera head in the camera storage compartment. Once you have properly secured the camera head to the camera storage compartment, you may now carry the AVerVision U70+ from the built-in handle.

Adjust the camera head gently and **DO NOT** forcibly twist the camera head back and forth or around. It may break the camera head off from the flex arm.
