BT1AH Secure and Reliable Ultra Small Form Factor Commercial Desktop

Smart Performance
ASUS Pro Series desktops empower easy multitasking with Intel® 3rd generation Core™ processors, powerful graphics, and support for up to 16GB of DDR3 memory to best handle your workload.

ASUS Business Suite
The ASUS Business Suite is designed for optimized small and medium business productivity. With features including software monitoring to increase PC security, USB Blocker for data movement control, effortless data back ups, PC Health Center for system maintenance, and energy saving to cut down power wastage, the ASUS Business Suite is an ideal one-stop management tool for SMB IT administrators.

Tool-less chassis access for easy upgrade and maintenance

Smooth and contemporary design provide an comfort user experience with solid front-to-end thermal solution and blend into all working environments with flexible placement - BT1AH supports horizontal or vertical placement. Advanced and brand new tool-less design empowers greater productivity and expansility on the ultra small form factor solution.

AI Security protects your data from unauthorized access and computer viruses
Management Information Systems can restrict users' access to confidential data, including enabling or disabling external USB devices or optical drives' data writing or reading capabilities. This also reduces the chances of incursions from viruses. It is integrated into the ASUS Business Suite 2.0 to provide complete control on unwanted devices management.

Trusted Platform Module (TPM) data security
Onboard TPM offers a protected and encapsulated micro-controller security chip for safeguarding internal data structures against real world threats. This ensures that information like keys, passwords, and digital certificates remains safe from external attacks, physical theft, and other types of intrusion. *excludes Russia and China markets
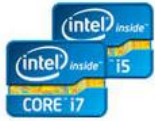

Chassis Intrusion Alert
Brings up special security notices the next time you boot your computer in the event the case has been opened without your knowledge, further ensuring the safety of components and data. *on selected model only

ASUS WebStorage: Up to 32GB free space
Share your pictures, music and movies with 32GB free space for 3 years, wirelessly share your files across multiple devices. With a keyword search, you can find the relevant files in no time. Record and upload the important meeting notes with snap shots, and then access them on any devices.
