

VA-USBC31-HDMI4K

Video Adapter Dongle – USB 3.1 Type C Male to HDMI 2.0 Female

Convert USB 3.1 Type C to an existing HDMI 4K device.

- Convert 3.1 Type C to HDMI 2.0. Use with newer PCs, Mac, or Chromebook computers with an USB 3.1 Type C output port.
- Supports 4K video at 60-Hz. Guaranteed for life!
- Supports resolutions up to 2560 x 1440 on a Macbook; 3840 x 2160 on a Chromebook and on a PC, and is dependent on the monitor and at three meters.
- No power needed. Power comes from the USB 3.1 Type C port making it ideal for use with mobile devices.
- Type C connector is symmetrical enabling the dongle to be plugged in up or down.
