Trying to pair

How to pair a microphone

1. Press the LINK button on the receiver

2. On the microphone you wish to pair,
   simultaneously press and hold the
   PTR buttons (see front page)

3. You will hear an audible beep

4. The microphone's BATT LED and
   the Receiver's LINK LED should both
   glow a steady green

Microphone Tips & Tricks

- Wear the mic 4-6 inches below your chin
- Charge your microphone nightly
- Speak in a normal conversational tone
- Don't turn up the volume too high. If you can hear
  your voice through the speakers, it's too loud.
  Invite another person to help you set the volume
- Use microphone daily for best results
