The answer to better presentations and teamwork success

Make your meetings the hotspot for idea and information sharing with the latest innovation in presentation and multi-site meeting management. Successful, manageable and enjoyable - it's possible with Christie®. With Christie Brio, sharing up to five presentations with a group, whether in the same office or across the country, is fast, secure and trouble-free. With a few quick keystrokes on your computer or handheld device you can share your audio, high-definition video, whiteboards, and more with multiple people in multiple locations achieving better decisions, faster.

Christie Brio is a presentation and collaboration solution you will want to work with. Simply put, it removes technical barriers and gets people connected quickly without any additional software or dongles so you can leverage critical knowledge faster and make more informed decisions for your business.

In an environment that relies on more information, faster decisions and better results, you want to have the best technology on the market. Check out Christie Brio for your next meeting collaboration and start sharing more.

CHRISTIE®

Share and collaborate like never before

Christie® Brio enables true multi-site meeting collaboration and is as fast and straightforward as making a phone call – but provides a much richer experience along with secure login and identification. Whatever the technology; Mac, PC or iPad, wired or wireless, any information on a display or whiteboard attached to a Christie Brio node is shared with all the displays in the same meeting. Regardless of participants' geographic locations, everyone sees the same information at the same time.

More productivity

More collaboration

▲ Christie Brio enables quick, straightforward, multi-site collaboration.

Christie Brio lets you share more.
# True, real-time presentation sharing
from multiple locations.

Multi-site

Capable of connecting multiple sites and multiple presentations, Christie® Brio enables effortless meeting collaboration, regardless of geographic location.
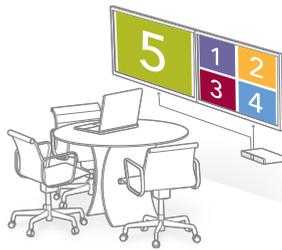

Straightforward setup

No hardware dongles to buy, break, or lose. You're up and running quickly and ready to share.
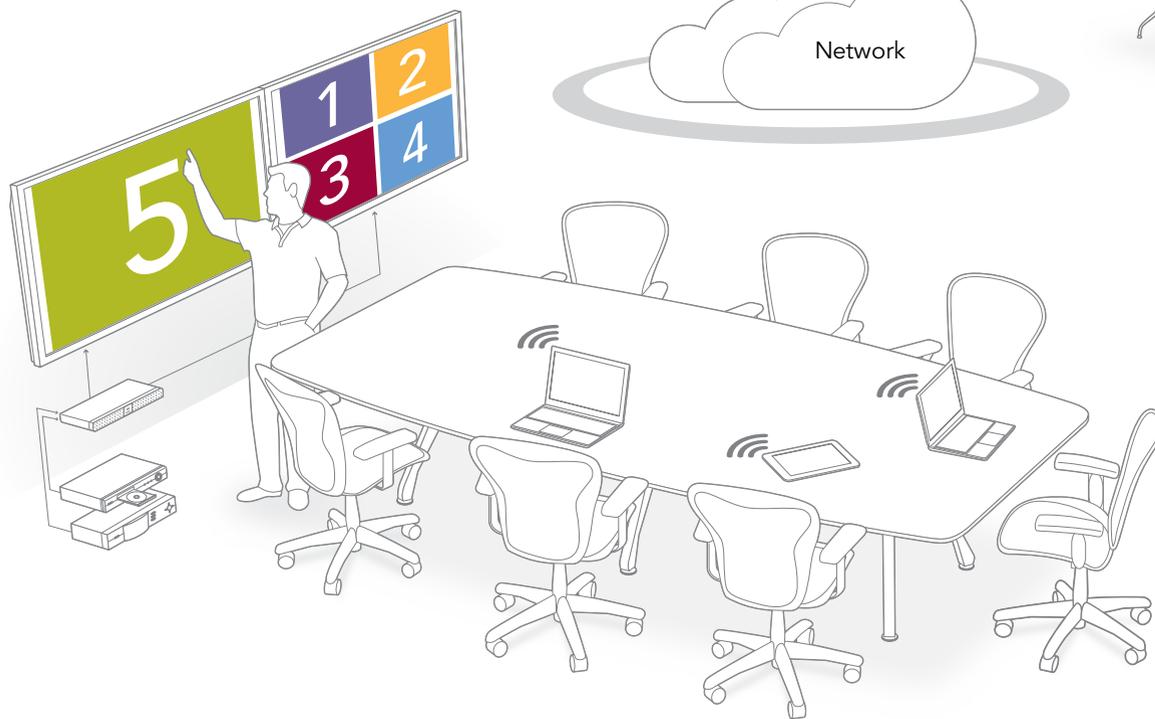

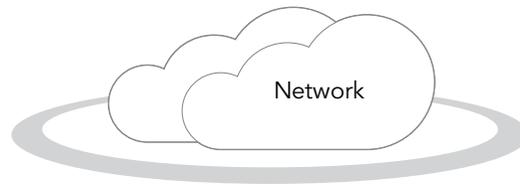

Whiteboard sharing

An interactive whiteboard allows any participant to add to or edit a drawing, providing a richer, more collaborative experience.
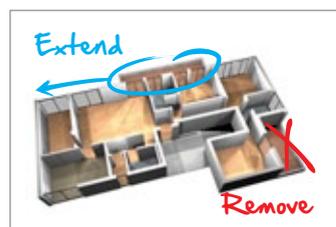

More productivity

One inconspicuous Christie® Brio node will quickly and automatically arrange multiple presentations on up to two displays. No long set-up times, tangled wires, or playing "pass the cable." Presentations maintain their proper aspect ratios on both the device and the meeting room display. Participants do not need to upload presentations in advance, install new software or device drivers, and there are no hardware dongles to buy, break, or lose.

Content is mirrored on the displays using standard secure wireless protocols and applications that are either already built into the device operating system or are freely available. The Christie Brio user interface is easy to use and requires no additional training.

More collaboration

Christie Brio makes intelligent decisions possible in an efficient and cost effective manner. Monologue meetings are a thing of the past. Now everyone can add their best thinking to the decision-making process – in the same room or across the country.

With Christie Brio you can share high-quality content for more compelling visuals. For displaying HD video sources at their native resolutions, Christie Brio supports two DVI-D inputs. These inputs provide the best visual experience for your participants.

Audio is streamed through the wireless protocol or connected to Christie Brio with standard jacks to feed output to the meeting room sound system. Participants aren't straining to hear audio from tiny laptop speakers, keeping them engaged.

More options

As meeting ideas come together, participants can map a new solution or highlight action points on the fly. Unique to Christie Brio is its ability to share the same whiteboard in real-time among participants. Any touch-enabled display attached to a node and connected to an IP network can interact with the whiteboard, allowing any participant to add to or edit the combined drawing.

Contributors can sketch a new drawing with writing tools of various shapes and colors and have the option to upload external images. Whiteboard drawings can be saved and distributed to participants or recalled for later editing.

Christie Brio's intuitive web user interface provides additional source layouts, more meeting management information, and more user configurations.

In a fast-paced environment where every decision counts, Christie® Brio enables efficient meetings that bring together all the critical information into a single environment. Collaborative tools and effortless communication mean decision makers can quickly focus on what matters most. With Christie Brio, you just share more.

Christie Brio features at a glance	
Chassis	• 1U form factor • Optional rack ears • Optional under table mount • Optional VESA "sandwich" mount
Output	• Supports up to two multi-touch HID (Human Interface Device) flat panel displays • 2 Dual-Link-DVI-D: Up to 2560 x 1600 pixels per output (outputs may be adapted to DisplayPort or HDMI) • 2 analog 3.5mm stereo audio
Inputs	• 2 DVI-D: Support for up to 2560 x 1600 pixels per input (wired connection) • 5 wireless inputs from 640 x 480 to 2560 x 1600 depending on protocol • 2 analog 3.5mm stereo audio • Support for HDCP
Network	• Gigabit Ethernet: 100/1000 Mbps Ethernet, RJ-45 connector • Support for IGMPv2, IPv4, IPv6, RTSP, SRTP, HTTP, TCP/IP
Encoding	• 2 high-definition DVI inputs to L5 H.264 video streams @ 30Hz • 2 stereo audio streams • Support for variable bit rate
Decoding	• 5 high-definition network video streams @ 30Hz • Up to 20 Mbps per video stream
Power	• Voltage range: 100-240VAC (auto-ranging power supply) • Current:4-2A (max) • Power consumption: 220W (max) • Dissipation: 750 BTU/hr (max)
Dimensions	• Size: (WxHxD) 17.40 x 1.74 x 9.5" (442 x 44 x 241mm) • Weight: 6.5lbs (2.95kg)
MTBF	• >50,000 hours of major modules
Regulatory	• CAN/CSA C22.2 No. 60950-1 • UL 60950-1 • IEC 60950-1 emissions • FCC CFR47, Part 15, Subpart B, Class A – unintentional radiators • CISPR 22/EN55022 Class A – information technology equipment immunity • CISPR 24/EN55024 EMC requirements – information technology • Equipment environmental • Directives: (EC) 2011/65/EU (RoHS); 2012/19/EU (WEEE); Regulation (EC) No. 1907/2006 (REACH) • Certification marks (check with Christie for latest update): cULus (Canada & US), CE (EU), CCC (China), GoST-R (Russia), KC (Korea), PSE (Japan), • C-Tick (Australia & New Zealand)
Warranty	• Limited two years parts and labor
