

Xerox NeverTear™

Xerox NeverTear is a high white synthetic advanced digital print media. Although we live in a 'disposable' world many types of documents need to have a long life. Some documents need to be handled frequently or need to be wiped clean. Some need to be handled in damp or dirty environments. Therefore, NeverTear enables short runs, print on demand and variable data printing all without the set up costs of traditional off-set printing. NeverTear is a unique and virtually indestructible product that looks like paper, but will withstand constant handling and can be wiped leaving the image intact. It is suitable for most copiers and laser printers and is a must for any important, well used document.

Applications

- Clothing tags and luggage tags
- Food preparation and display
- Site plans, charts and maps
- Use in hospitals and clinics
- External signage
- Archiving original documents
- Loyalty cards and price lists

Product Features

- Tear proof, water resistant proof and greaseproof
- Good toner bonding and image quality
- Soft, non-plastic feel
- Archival qualities
- Laser guarantee
- Can be wiped clean
- Able to be die cut into different shapes and offset printed
- Does not require laminating to achieve durability
- Sheets can be supplied pre-printed

100% Quality Guarantee

The Fuji Xerox NeverTear stock is 100 % guaranteed for Xerox Colour copiers and digital printers. This means that if you are not 100 % satisfied, we will exchange it for you.

NB: Please check your Colour machines specifications and/or the recommended materials listings for suitable stock weights and machine capabilities.
