

# PL100

## Family Camera with Dual Display

The PL100's hidden 1.5" LCD located on the front of the camera allows you to take portraits using the front screen as a guide - whether it's a group shot with friends or a snap of yourself.

### Key Features

#### Hidden front 1.5" LCD

On the front of the camera is a 1.5" LCD that shows you exactly what the picture will look like, so you can now be a subject of the picture, as well as the photographer.

#### Smart Auto Mode

Clever technology optimises the camera automatically to ensure the best results.

#### Smile Detection

Smile Detection ensures that no happy moments are missed by taking the shot automatically when smiles are detected.
