

GARMIN

ENVISION THE FUTURE

Introducing the Garmin Drive™ product line

What drives you?

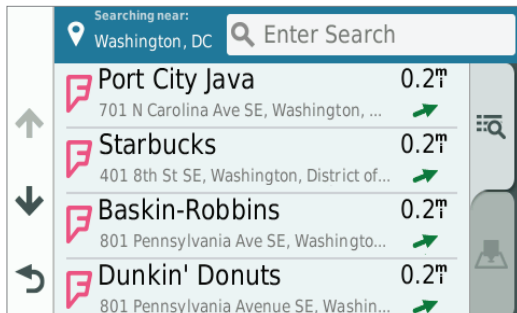

Whether your weekly commute consists of trips to the grocery store or picking up clients from the airport, Garmin Drive has a GPS navigator specific to your needs. To encourage safer driving and increase situational awareness, the entire Garmin Drive™ product lineup features driver alerts.

AWARENESS

It's not just about getting from point A to point B with GPS navigation. It's about having a smoother commute with driver awareness features that increase situational awareness and encourage safer driving.

Garmin Drive™

Garmin Drive includes all of the great driver awareness alerts like upcoming sharp curves, fatigue warning², speed changes, railroad crossings and more. It's simple to use and dedicated to getting you to your destination with ease. Thanks to Foursquare®, it's preloaded with millions of popular places. The Up Ahead feature lets you easily see places up ahead and milestones along your route, without leaving the map view.

Foursquare

Preloaded Foursquare data has millions of popular places.

Direct Access

Simplifies navigating to select complex destinations such as malls and airports.

Garmin Real Directions™

Spoken Garmin Real Directions guide you like a friend, using recognizable landmarks, buildings and traffic lights.

DIRECT ACCESS

TRAFFIC¹

¹ Available with Garmin Drive 50 USA LMT and Garmin Drive 50 USA+CAN LMT. [Lifetime Traffic Terms & Conditions](#)

² The fatigue warning activates after longer periods of consecutive driving without any long stops along the route. Foursquare® and the Foursquare® logos are registered trademarks of Foursquare Labs, Inc.

SMART CONNECTIONS

Staying in the loop shouldn't mean losing focus of the road ahead. We get it. So we brought smart notifications¹ to your GPS navigator's display.

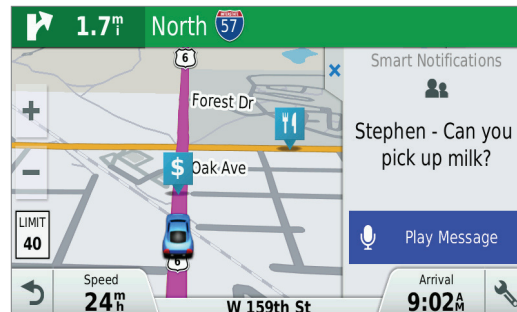

Garmin DriveSmart™

Stay focused on the drive ahead while staying connected with customizable smart notifications that appear on your navigation display. Voice-activated navigation and Bluetooth® hands-free calling allows you to keep your hands on the wheel when entering a destination or making a phone call. Includes all the driver awareness features, with lifetime traffic³ on select Garmin DriveSmart models. Bird's Eye and photoReal Junction Views help navigate interchanges with ease.

Smartphone Link

For real-time information such as weather and traffic conditions as well as smart notifications like calls, texts, and emails, download Smartphone Link² mobile app, that connects your navigator with your iPhone® or Android™.

Smart Notifications

Customizable smartphone notifications let you display calls, texts and other app alerts on your navigation screen.

VOICE-ACTIVATED NAVIGATION

PINCH TO ZOOM

¹ To receive Smart Notifications on your navigator, you must download the free Smartphone Link app. Requires Bluetooth-enabled smartphone (sold separately)

² User's data plan charges, if any, will apply. Contact your mobile service provider for more information about your service plan's data and roaming rates. Subscription may be required.

³ Lifetime Traffic Terms & Conditions

The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Garmin is under license.

CAMERA-ASSISTED

Offering the protection of “an eyewitness that never blinks,” Garmin DriveAssist comes with a built-in dash cam that continually records your drive and provides advanced driver alerts to encourage safer driving.

Garmin DriveAssist™

The built-in dash cam³ continually records your drive and automatically saves video footage on impact, while GPS records exactly where and when events occurred. Includes all the driver alerts with additional camera-assisted alerts like Forward Collision Warning and Lane Departure Warning. Lifetime traffic² helps you avoid traffic jams and learn time-saving detours.

Garmin Real Vision™

When approaching select destinations, your navigation display will switch to camera view and a bright arrow will point to where you need to go.

Forward Collision Warning¹

Alerts if you drive too close to the car ahead.

Lane Departure Warning¹

Alerts you if you drift off the road or into oncoming traffic.

LUXURY

Luxury shouldn't drop off at premium features and that's why we've designed a more sleek and stylish GPS navigator to look as good as your commute will feel.

Garmin DriveLuxe™

In a sleek and stylish design, Garmin DriveLuxe provides helpful driver alerts, plus many hands-free³ and smart navigation features¹. This premium navigator features HD Digital, the best and fastest traffic avoidance⁴ solution from Garmin, with updates as often as every 30 seconds. Stay focused on your drive ahead while staying connected with customizable smart notifications that appear on your navigation display.

Beautiful Design

The sleek metal design features a powered magnetic mount that securely holds and charges Garmin DriveLuxe as you drive.

HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corporation.

DRIVER ALERTS

To encourage safer driving and increase situational awareness, the entire Garmin Drive™ product lineup features driver alerts.

Fatigue warning

Suggests break times and potential rest areas ahead after hours of driving.

Railroad & Animal crossings

Provides alerts when approaching railroad crossings or animal crossings.

Wrong way on a one way

Provides alerts when driving the wrong way on a one way.

Sharp curves

Notifies you when approaching sharp curves ahead.

Red light and speed cameras

Provides alerts when approaching red lights or speed cameras.

Speed changes

Alerts for upcoming changes in speed.

Approaching traffic jam

Alerts when approaching stopped or slow traffic on select models.

Traffic avoidance

Avoid traffic and learn time-saving detours on select models. No subscriptions and no fees.

School alerts

Warnings for nearby schools and school zones.

ADD A CAMERA TO YOUR DRIVE

When it comes to adding camera technology to your drive, Garmin has you covered, backwards and forwards and everything in between.

BC™ 30 Wireless Backup Camera

Easily see vehicles, pedestrians, and other obstacles when you move in reverse.

Garmin Dash Cam™¹

Drive with a reliable eyewitness when you are on the road.

Garmin babyCam™¹

When traveling with a child, babyCam™ works as an in-vehicle baby monitor.
