# LENOVO<sup>™</sup> MIIX 520 (12")

# AN ELEGANT 2-IN-1 THAT IS SMARTER THAN EVER

Extremely portable and flexible, the Miix 520 is designed to fit every mood. Feeling creative? Grab the Lenovo Active Pen 2 and write or draw directly on screen—even editing 3D objects scanned from your surroundings. Need to simplify your day? Let Cortana help – she can now respond to your commands from 4 meters away. Fancy some downtime? Detach the keyboard and the Miix 520 becomes a 12" multimedia-rich tablet with stunning display and surround sound speakers. Add powerful Quad Core processing and LTE, and Miix is your perfect companion for every situation.

INTUITIVELY VERSATILE Stylish yet practical, portable yet sturdy, this 2-in-1 gives you the freedom and flexibility to work, play, and rest anywhere and everywhere.

# A Versatile 2-in-1 Companion

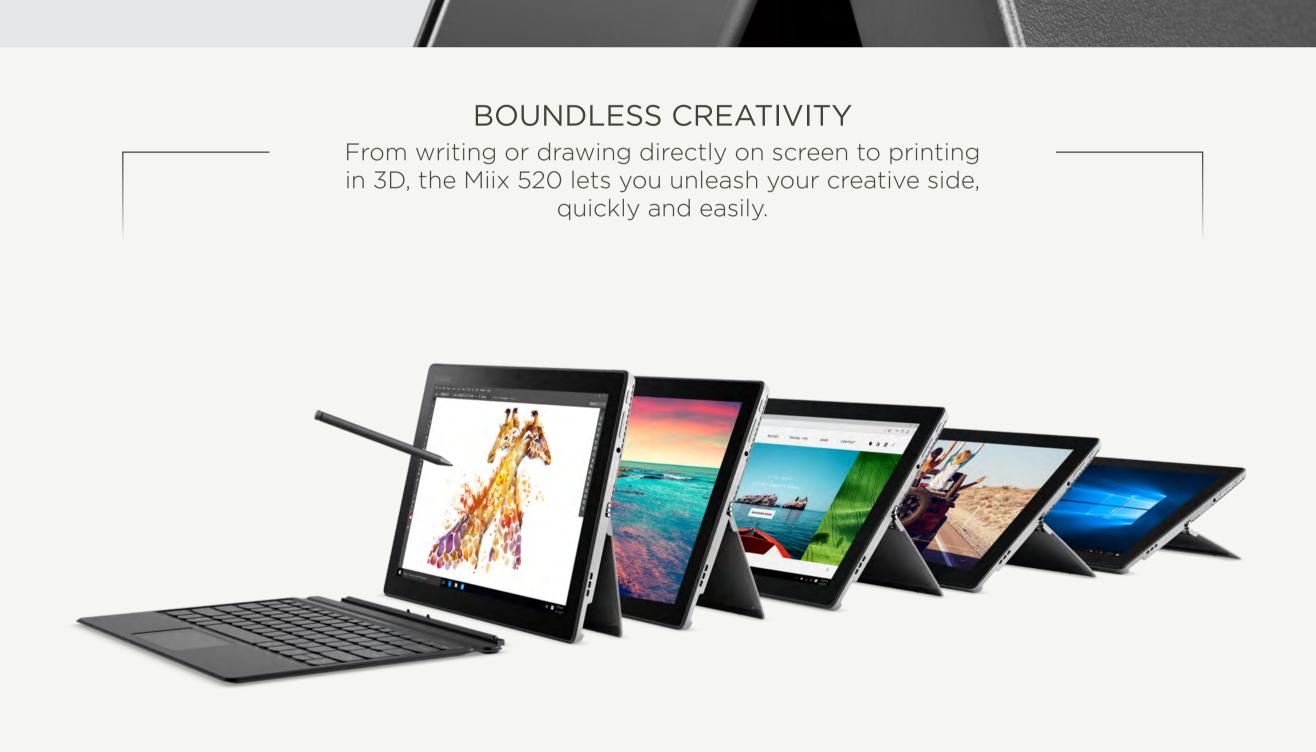

Sleeker than ever, the Miix 520 is whisper thin and effortlessly portable. Featuring a modern one-piece aluminum alloy body, this elegant 2-in-1 will complement your lifestyle wherever you go. All you need to do is decide which color bests suits you— Platinum or Iron Gray?

# Ergonomic Keyboard That's Also a Screen Protector

You spoke, we listened. Our detachable keyboard now has a longer right 'Shift key', 1.5 mm key travel, and optional backlighting—for a more comfortable typing experience. A precision touchpad also offers pin-point accuracy, ensuring the intuitive ease of a laptop. Best of all, this ergonomic keyboard doubles as a folio case to protect your screen when you're on the move.

Designed to Fit Your Lifestyle Constructed from 256 individual pieces of stainless steel, the Miix 520's dual watchband hinges provide the strength and flexibility to adapt to your schedule— whether you're lounging on the couch, jotting down creative ideas, or powering through a presentation.

# Do More with Active Pen 2

With 4,096 levels of sensitivity, the Lenovo Active Pen 2 emulates the feeling of a pen-on-paper experience. Best of all, it will transform your Miix 520 into a digital canvas, smart assistant and more.

#### Unleash Your Creativity at a Touch

Together, Lenovo Active Pen 2 and Windows Ink open up a world of creativity and time-saving shortcuts. With a few strokes of the pen on screen, you will be able to post updates and comments on social media, reply to emails, generate directions by tracing a route in Bing Maps, and so much more. In addition, Cortana can transform your handwritten notes into reminders and sync them across all your Windows devices.

### Bring Everyday Objects to Life

You live in a 3D world, so why settle for 2D? With the optional WorldView camera\*, you can now scan 3D objects, edit them, overlay them on top of a 2D photo, re-arrange their shape-and even send them to a 3D printer. And with the host of additional 3D capabilities that Windows 10 brings, it's never been easier to create, capture and share 3D moments.

#### LIFE HACKING Designed with a number of intuitive, smart features that will help to simplify your day and save you time.

#### Say Hello to Cortana

Meet Windows Cortana, your voice-activated digital assistant who is prepared to answer your questions, open apps, set reminders and more-around the clock. And with specially engineered far field microphones, Cortana can even hear your commands from across the room\*.

# Password? It's on The Tip of Your Finger

With an optional fingerprint reader and Windows Hello, you can log in to your Miix 520 in less than two seconds-around three times faster than typing a password. It's simple, and above all, safe: each login is wrapped in three layers of protection designed so that neither your fingerprint information or credentials ever leave your device.

\* Optional feature

# No WiFi? No Problem

Thanks to the optional LTE\* connection, you can stay in touch with friends and family without a WiFi connection. As long you're on a cellular network, you can make Skype calls, share memorable moments on Twitter, and even sync your mailbox. Plus, with its dual antenna enhancing data connectivity, the Miix 520 will pick up a wider range of signals for a more stable connection.
