

Epson TM-T70-i Intelligent Printer, EDG, UK

DATASHEET

The Epson TM-T70-i provides users with a straightforward and elegant printing solution, with no need for drivers. Ideal for use with tablet PCs or mobile phones, the TM-T70-i is simple to use and maintain, with the ability to print from any device running an HTML 5 compatible web browser. In addition, the TM-T70-i has controls and paper loading at the front of the device, as well as a splash-proof housing, making it ideal for mounting under counters.

Ease of use

The Epson TM-T70-i provides convenient and straightforward receipt printing directly from tablet PCs and other mobile devices without the need for drivers, so a LAN or WLAN connection is all that you will need. In fact, the TM-T70-i can print from any device that is running a popular web browser.

Intelligent functionality

Using a unique built-in intelligence called ePOS-Print, the TM-T70-i is able to receive XML commands from web applications in addition to communicating directly with browsers supporting HTML 5, such as Safari®, Chrome™, Internet Explorer® and the standard Android browser. This makes the TM-T70-i ideal for restaurants, hotels and bars using tablet PCs or mobile phones for ordering. Additionally, users can switch between applications without changing printer settings, and configure the printer from mobile devices.

Control connected devices

Due to ePOS-Print's ability to recognise all major ESC/POS functions which are sent as XML commands, the TM-T70-i can control cash drawers, as well as additional printers with a wired or wireless UIB interface, such as order-driving kitchen printers.

Reliable, easy servicing and maintenance

The TM-T70-i is ideal for businesses that require a stable system that is cost-effective to implement and maintain. With no drivers to update and no need for a permanent connection to a PC or server, servicing and trouble-shooting are simple. In addition, fewer pieces of equipment mean less power consumption, reducing bills and environmental impact.
