Programme overview

- Maximum 3 kg
- Single-layered laundry
- Pre-dried, multi-layered, sensitive fabrics
- Acrylic fibres, separate small items of laundry
- Also for subsequent drying

**Dryness levels can be selected individually**

- Cupboard Dry
- Cupboard Dry Plus
- Iron Dry

- Cottons programme
- Programme setting for testing and energy labelling in accordance with Directive 2010/30/EU.
- Standard programme for cottons in accordance with current EU regulation 932/2012

Technical data

- Power rating: 2200 W
- Power consumption: approximately 35 kg
- Max. 3 kg
- Durations: 6 kg (114 min), 5 - 35 °C
- Energy consumption: 2.76 kWh
- Spin speed: 1400 rpm
- Excluding programme delays

What to do if...

- The display panel light and/or indications are not illuminated.
  - The mains voltage and the voltage shown on the rating plate.
  - Check the後 fuse protection and all connections.

- Programmes do not start.
  - Check the mains voltage and the voltage shown on the rating plate.
  - Clean the sensors and the exhaust vent.

- Programmes are finished too early.
  - Ambient temperature greater than 5°C?
  - Ambient temperature less than 5°C?

- Programmes do not stop.
  - Stop indicator light flashes.
  - Check the installation conditions and production number (FD) (see the inside of the door).

- Start does not work.
  - Stop button pressed?
  - The Start/Off button is not illuminated.

- Programmes take significantly longer.
  - Ambient temperature less than 5°C?
  - Ambient temperature greater than 5°C?

- The machine is noisy.
  - Check the installation conditions and production number (FD) (see the inside of the door).

- Final part of a tumble dryer cycle occurs without heat (cool down cycle).
  - Warm laundry feels damper than it really is!

Safety instructions

- Before the machine goes into the combined washing or drying mode, the unit must be dry in all sections.
- The combined load and necessary fuse protection are specified on the rating plate.
- The dryer must not be used by children or persons who have not been instructed in its use.
- Do not damage the mains lead or power plug when installing the dryer...
- Do not install the dryer behind a door or in a cupboard.
- The mains plug and socket must be compatible.
- If in doubt, have the appliance connected by a specialist.
- Do not install in a room where there is a risk of freezing.
- Install the exhaust air duct (depending on the model).
- Ensure that the appliance is installed on a clean, solid surface.
- Do not install in cupboards or tight spaces.
- Do not install the dryer behind a door or in a cupboard...
- No damage caused to the mains lead during transport.
- Ensure that the items are left at a temperature that ensures that items will not be damaged.
- All materials are environmentally friendly and reusable.
- Do not put laundry containing foamed material in the dryer...
- The height and width of the dryer (85 cm, 60 x 60 cm) must be empty.
- Do not install the dryer behind a door or in a cupboard.
- The dryer can be used by children or persons who have not been instructed in its use.
- Children are not allowed to use the dryer...
- Perform a safety check before using the dryer...
- The combined load and necessary fuse protection are specified on the rating plate.
- The dryer must not be used by children or persons who have not been instructed in its use.
- Do not damage the mains lead or plug when installing the dryer...
- Do not install the dryer behind a door or in a cupboard.
- The mains plug and socket must be compatible.
- If in doubt, have the appliance connected by a specialist.
- Do not install in a room where there is a risk of freezing.
- Install the exhaust air duct (depending on the model).
- Ensure that the appliance is installed on a clean, solid surface.
- Do not install in cupboards or tight spaces.
- Do not install the dryer behind a door or in a cupboard...
- Clean and level the floor.
- Make sure the room is sufficiently ventilated.
- Ventilate the room.
- Do not turn off the dryer until the drying process ends, unless the laundry will be washed again or hung up to dry.
- Do not hang the laundry up to dry until the dryer has finished its programme:
  - the drum of the dryer...
Congratulations - You have chosen to buy a modern, high-quality Bosch domestic appliance.

A distinctive feature of your dryer is its low energy consumption.

Every dryer which leaves our factory is carefully checked to ensure that it functions correctly and is in perfect condition. Should you have any questions, our after-sales service will be pleased to help.

Environmentally-responsible disposal

This appliance is labelled in accordance with European Directive 2012/19/EU concerning used electrical and electronic appliances (waste electrical and electronic equipment - WEEE). The guideline determines the framework for the return and recycling of used appliances as applicable throughout the EU.

For further information about our products, accessories, spare parts and services, please visit: www.bosch-home.com

Intended use

- exclusively for domestic use,
- only for drying fabrics which have been washed using water.

Keep children younger than 3 years old away from the dryer.

Do not let children make the cleaning and maintenance work on the dryer without supervision.

Do not leave children unsupervised near the dryer.

Keep pets away from the dryer.

The dryer may be operated by children from 8 years of age, by persons who have limited physical, sensory or mental abilities and by persons who have inadequate experience or knowledge, provided they are supervised or have been instructed by a responsible person.

Never operate the dryer if it is damaged. Inform your after-sales service.

Sort the programmes

Remove all objects from pockets. Pay particular attention to cigarette lighters. The drum must be empty before filling.

Selecting and adjusting the programme

Select the drying programme... Press the Programme selector

Before running the dryer for the first time

Running the drying cycle without any laundry...
Cleaning the fluff filter
Clean the fluff filter after each drying cycle.
1. Open the door and pull out the fluff filter.
2. Remove the fluff (brush your hand over the fluff filter).
   If the fluff filter is very dirty or blocked, wash it out with warm water and dry thoroughly.
3. Insert the fluff filter so that you hear it engage.
4. Remove fluff from door/door area.

Switching off the dryer
Turn the programme selector to Off.
Do not leave laundry in the dryer.

Removing the laundry
Your dryer has an automatic anti-crease function. The drum is moved at set intervals for 30 minutes after the programme has ended. Laundry remains loose and fluffy (for 90 minutes, if additional Reduced Ironing function is selected - depending on model).
Care and cleaning

Dryer housing, control panel
- Wipe off with a soft, damp cloth.
- Do not use abrasive cleaners or solvents.
- Remove detergent and cleaning agent residue immediately.

Exhaust air duct
Check the exhaust air duct. Clean the exhaust air duct every six months.
Do not bend the exhaust air duct.
1. Switch off the dryer and allow it to cool down.
2. Disconnect the mains plug.
3. Remove the exhaust air duct.
4. Clean the exhaust air duct.
5. Refit the exhaust air duct → Installation instructions for exhaust air duct.

Moisture sensors
The dryer is equipped with stainless steel moisture sensors. Moisture sensors measure the moisture level of the laundry. After sustained, repeated operation, a fine layer of limescale may form on the moisture sensors.
1. Open the door.
2. Clean the moisture sensors using a slightly damp sponge with a rough surface.

Notes on laundry ...
Labelling of fabrics
Follow the manufacturer’s care instructions.
- Drying at a normal temperature.
- Drying at a lower temperature → in addition, select Low Heat.
- Do not machine dry.

Before drying for the first time
- Do not put any laundry in the machine. Turn the programme selector to Zeitprogramm (timer programme) (→ page 7) and select Start/Stop. At the end of the programme, turn the programme selector to Off.

Drying tips
- To ensure a consistent result, sort the laundry by fabric type and drying programme.
- Always dry very small fabrics (e.g. baby socks) together with large items of laundry (e.g. hand towels).
- Fasten zips, hooks and eyelets, button covers and tie together cloth belts, bands, etc.
- Do not overdry easy-care laundry → risk of creasing
- Allow laundry to finish drying in the air.
- Do not iron laundry immediately after drying, fold items up and leave for a while → the remaining moisture will then be distributed evenly.
- Knitted fabrics (e.g. T-shirts, jerseys) often shrink slightly the first time they are tumble-dried.
- Do not use the Cupboard Dry Extra programme.
- Starched laundry is not always suitable for dryers → starch leaves behind a coating that adversely affects the drying operation.
- When washing the laundry that is to be tumble-dried, measure the fabric softener in accordance with the manufacturer's instructions.
- Using a timer programme with a small laundry load → optimisation of the drying result.

Environmental protection / Energy-saving tips
- Before drying, spin the laundry thoroughly in the washing machine → the higher the spin speed, the shorter the drying time will be (consumes less energy), also spin easy-care laundry.
- Use the maximum recommended fill level but do not overload with laundry → overview of programmes, page 7.
- Make sure the room is well ventilated during drying.
- Clean the fluff filter after every drying cycle → page 4.
Programme overview see also page 5

Sort the laundry according to type of textile and fabric. Fabrics must be suitable for tumble drying.

After drying, laundry is to be...

- Ironed
- Lightly ironed
- Not ironed
- Mangled

**Timed Programme**

- Warm 60 min.
- Warm 40 min.
- Warm 20 min.
- Cold 20 min.

Degree of dryness can be finely adjusted; multi-layered textiles require a longer drying time than single-layered items of clothing.

Recommendation: Dry separately.

*only for the Cottons programme

**Dryness levels can be selected individually**

- **Cupboard Dry Plus**, **Cupboard Dry** and **Iron Dry**

(depending on the model).

Installation

- **Scope of delivery:** dryer, instruction manual and installation instructions.
- **Check dryer for transport damage.**
- **The dryer is very heavy. Do not lift without assistance.**
- **Be careful to avoid sharp edges.**
- **Do not lift the dryer by protruding parts (e.g. the door) - risk of breakage.**
- **Do not install in a room where there is a risk of freezing.**
  *Freezing water can cause damage.*
  *If in doubt, have the appliance connected by a specialist.*
- **Mains connection**
  *For safety instructions, go to page 11.*
  *Connect to an AC earthed socket. If in doubt, have the socket checked by a specialist.*
  *The mains voltage and the voltage shown on the rating plate (see page 9) must be the same.*
  *The connected load and necessary fuse protection are specified on the rating plate.*
- **Setting up the dryer**
  *The mains plug must always be accessible.*
  *Keep the area around the dryer clean.*
  *Ensure that the appliance is installed in a clean, level and firm surface.*
  *The mains plug must always be accessible.*
  *Lift the dryer if necessary and slide it into place.**
  *Level the dryer using the front threaded feet.**
  *On no account remove the threaded feet.*
  *Do not install the dryer behind a door or sliding door which could prevent or obstruct the dryer door from opening.*
  *This will prevent children from locking themselves in and risking their lives.*
  *Do not install in a room where there is a risk of freezing.**
  *Freezing water can cause damage.*
  *In doubt, have the appliance connected by a specialist.*
  *Remove all accessories from the drum. The drum must be empty.*
The door opens by itself. Push the door closed until you hear it engage. The display panel light and

Energy consumption**

114 min/68 min
3.45 kWh/2.03 kWh
2200 W

Exhaust air duct blocked or bent? Provide adequate air circulation.

Condensation in the exhaust air duct.

Exhaust air duct too long? Check the maximum exhaust air
duct length. Further information → installation instructions for exhaust air duct.

Power failure.

Remove laundry from the dryer immediately and spread out. This allows the heat to dissipate. Be careful as the
door, the drum and the laundry may be hot.
Safety instructions

Emergency
ONLY use the dryer...
- Pull the mains plug out of the socket immediately or disconnect the fuse.
- in rooms inside the house.
- for drying fabrics.

The dryer must NEVER...
- be used for other purposes than those described above.
- be modified in terms of its technology or attributes.

Dangers
- The dryer must not be used by children or persons who have not been instructed in its use.
- Do not leave children unsupervised near the dryer.
- Keep pets away from the dryer.
- Remove all objects from the pockets of garments.
- Pay particular attention to cigarette lighters → risk of explosion!
- Do not lean or sit on the door → risk of tipping!
- Open the door with care. Hot steam may escape.

Installation
- Fasten down loose leads → risk of tripping!
- Do not operate the dryer where there is a risk of frost.
- The safety information in the separate installation instructions for the exhaust air duct must be observed without fail.
- Connect the dryer to an AC earthed socket according to specifications, as otherwise it cannot be guaranteed that the appliance is completely safe.
- The cable cross-section must be sufficient.
- Only use earth-leakage circuit breakers with the following symbol: ☒
- The mains plug and socket must be compatible.
- Do not use multiple plugs/couplings and/or extension cables.
- Do not touch or hold the mains plug with wet hands → risk of electric shock!
- Never pull the mains plug out of the socket by its cable.
- Do not damage the mains lead → risk of electric shock!

Mains connection
- Connect the dryer to an AC earthed socket according to specifications, as otherwise it cannot be guaranteed that the appliance is completely safe.
- The cable cross-section must be sufficient.
- Only use earth-leakage circuit breakers with the following symbol: ☒
- The mains plug and socket must be compatible.
- Do not use multiple plugs/couplings and/or extension cables.
- Do not touch or hold the mains plug with wet hands → risk of electric shock!
- Never pull the mains plug out of the socket by its cable.
- Do not damage the mains lead → risk of electric shock!

Operation
- Only load the drum with items of laundry.
- Check what has been loaded before switching the dryer on.
- Do not use the dryer if the laundry has been in contact with solvents, oil, wax, grease or paint (e.g. hair setting spray, nail polish remover, stain remover, cleaning solvent, etc.) → fire/explosion hazard!
- The tumble dryer is not to be used if industrial chemicals have been used for cleaning.
- Dust danger (e.g. coal dust or flour): do not use the dryer → risk of explosion!
- Do not turn off the dryer until the drying process ends, unless the laundry will be removed quickly and spread out, so that the heat can dissipate.
- Do not put laundry containing foamed material/rubber in the dryer → elastic material may be destroyed and the dryer may be damaged due to possible deformation of the foamed material.
- Final part of a tumble dryer cycle occurs without heat (cool down cycle), to ensure that the items are left at a temperature that ensures that the items will not be damaged.
- Switch off the dryer once the programme has ended.

Defect
- Do not use the dryer if it is defective or if you suspect that it is.
- Repairs must only be carried out by the after-sales service.
- Do not use the dryer with a faulty mains cable. In order to avoid risk, have the mains lead replaced only by our after-sales service.

Spare parts
- Only use genuine spare parts and accessories for safety reasons.

Disposal
- Dryer: Disconnect the mains plug, then cut the mains cable off the appliance.
- Dispose of the appliance at a public disposal site.
- Packaging: Do not allow children access to items of packaging → risk of suffocation!
- All materials are environmentally friendly and reusable.
- Dispose of in an environmentally responsible manner.
