LightScene EV-105

LASER · **24/7** · **5 YR** · **WXGA** · **2000 lm** · **Wi-Fi®**

2,000-lumen WXGA accent lighting projector in black, with a low visual noise design, ideal for retail displays, galleries and museums.

Add movement and life to your retail displays or exhibitions with a low visual noise projector that blends in beautifully to any environment, and blurs the line between lighting and projection with 2,000-lumen brightness and WXGA sharpness.

A discreet attention-grabber

The LightScene EV-105 allows you to to create instantly appealing visuals with sharp WXGA resolution and 2,000-lumen brightness. Yet thanks to its low visual noise black casing, it can be used where a traditional projector would stand out, such as window displays and as part of exhibitions.

Simple, flexible implementation

A light, flexible design means the EV-105 can be installed in a variety of ways, from a traditional ceiling mount to a freestanding floor mount, or attached to an existing lighting track like a spotlight[1]. It can also be mounted at and project from any angle, including portrait. The projector can be used as a traditional spotlight for when simple lighting effects are needed.

Easy to program and use

The EV-105 comes with Epson Projector Content Manager Software for quick, easy set-up without specialist installation. Playlists can easily be loaded via SD Card and changed using remote control by employees without the need for a computer. The projector can also use advanced techniques such as edge-blending to achieve stunning results in larger spaces that require multiple-unit installations.

Fit and forget reliability

A five-year, 20,000-hour warranty, coupled with Epson's durable, reliable inorganic phosphor wheel technology means that EV-105 projectors can be installed and forgotten about, and don't require regular maintenance.

KEY FEATURES

- **Discreet signage projector**
  Low visual noise black casing won't grab the spotlight
- **Sharp, vivid projection**
  2,000-lumen brightness and detailed WXGA resolution
- **Flexible installation**
  Can be ceiling-mounted, floorstanding or attached to a lighting track
- **Easy playlist loading**
  Playlist can be loaded from an SD Card without need for a computer
- **Fit and forget reliability**
  Durable Epson technology supported by a five-year 20,000-hour warranty
