

Panda Internet Security 2014

Protect your family
and your identity

Want protection for you and your family on the Internet? Panda Internet Security 2014 offers the most advanced protection against Internet threats.

What does **Panda Internet Security 2014** offer?

Collective Intelligence = Intelligent scanning.

A new threat is identified and in a matter of seconds all Panda Security's customers worldwide are protected.

Advanced protection against viruses and hackers = An impenetrable barrier.

Immediate protection against all types of known and unknown threats thanks to Panda's Cloud technology.

Rescue kit = Your lifesaver.

Recover any computer should a virus prevent you from using it. You can also help anyone else with an infected computer by creating a rescue USB drive.

Personal firewall = Your defensive wall.

Firewall with WiFi security that blocks intruders and hackers, even in your wireless network.

Parental Control = Protect your kids while giving them their own space.

Let your kids surf the Internet without inappropriate content. Let them enjoy the Web without being exposed to the risks.

Anti-spam protection = Email without junk mail.

Anti-spam filter that keeps your inbox free from spam.

Backup copies = Prevent accidental loss of data.

Safeguard and restore your most important files and prevent accidental data loss. Access your data from anywhere through Backup Online.
