

## AUX Audio Cable

Listen to your tunes through your car stereo

K39202US

### Product Description

A direct connection from your iPhone to your car stereo means cleaner, clearer sound. The cable braided Kensington AUX Audio Cable plugs into the standard 3.5mm AUX (auxiliary) port on your car stereo and the headphone jack on your iPhone or iPod. Taking your tunes on the road has never sounded better.

### Features

- Plugs into your car's AUX (auxiliary) connector for pure sound
- Cable braiding for strength, durability and limited tangle
- 4-ft long, 3.5mm audio cable
