Key	Function
Power key	<ul style="list-style-type: none"> <li>Press and hold to turn on or off aeroplane mode, power off or restart the phone.</li> <li>Press to turn off or on the screen display.</li> </ul>
Home key	<ul style="list-style-type: none"> <li>Touch to return to the home screen.</li> <li>Touch and hold to open Google Search.</li> </ul>
Back key	Touch to go to the previous screen.
Recent apps key	<ul style="list-style-type: none"> <li>Touch to see recently used applications.</li> <li>Touch and hold to view the options for the current screen.</li> </ul>
Volume key	Press or hold either end of the key to turn the volume up or down.

**Installing the nano-SIM Card and microSDXC card**

The nano-SIM card, and the microSDXC card can be installed or removed while the phone is turned on. You need to unmount the microSDXC card before removing it.

If you experience any issues with your phone, contact customer service or visit your nearest retail location.

**WARNING!**

To avoid damage to the phone, do not use any non-standard nano-SIM card cut from a card. You can get a standard nano-SIM card from your service provider.

1. Insert the tip of the tray eject tool into the hole on the card tray.

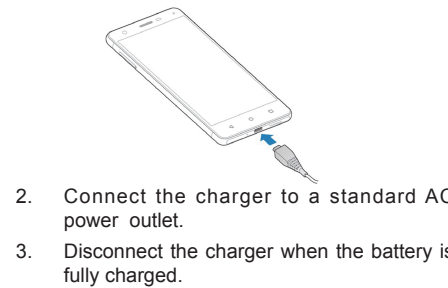

**Charging the Battery**

Your phone's battery should have enough power for the phone to turn on, find a signal, and make a few calls. You should fully charge the battery as soon as possible.

**WARNING!**

Use only ZTE-approved chargers and cables. The use of unapproved accessories could damage your phone or cause the battery to explode.

1. Connect the adapter to the charging jack. Ensure that the adapter is inserted in the correct direction.

**NOTE:**  
If the battery is extremely low, you may be unable to power on the phone even when it is being charged. In this case, try again after charging the phone for at least 20 minutes. Contact the customer service if you still cannot power on the phone after prolonged charging.

**Powering On/Off Your Phone**

Ensure that the battery is charged.

- Press and hold the **Power** key to turn on your phone.
- To turn it off, press and hold the **Power** key to open the options menu and touch **Power off > OK**.

**Waking Up Your Phone**

When you are not using your phone, press the Power key to turn off the screen. After a specified amount of time, your phone automatically locks itself. To unlock, swipe your finger up the screen. To shortcut from your lock screen, swipe right from the icon for voice assist, or swipe left from the icon for taking a photo or a video.

**NOTE:**

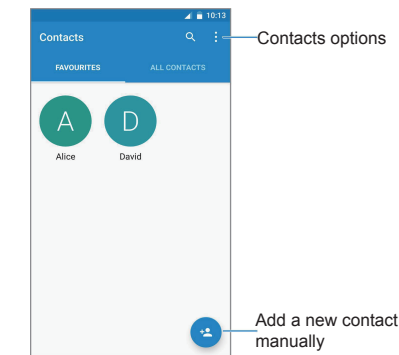

If you have set an unlock pattern, a PIN or a password for your phone, you'll need to swipe up on the screen and then draw the pattern, or enter the PIN/password to unlock your phone.

**NOTE:**

Touch a notification twice consecutively to open the related app when some notifications appeared.

**Managing your contacts**

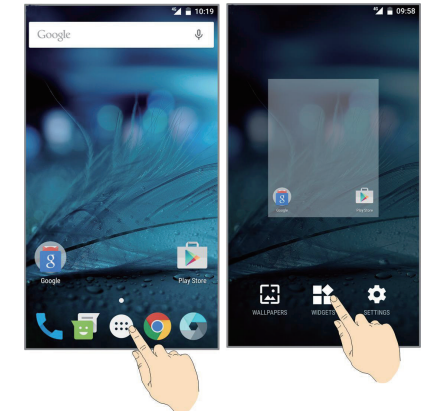

Touch the **Home** key > > to view the contact information. Touch > **Import/Export** to import or export contacts from/to your nano-SIM card, the phone storage, the microSDXC card or your online accounts. This is especially useful when you need to transfer contacts between different devices. You can also quickly share your contacts using Bluetooth, email, messages, etc.

**Personalising the home screen**

Touch the **Home** key > to view all the apps installed on your phone. Touch and hold an empty area of the home screen and select **WIDGETS** to view all the widgets on your phone. Slide up or down to browse. Touch and hold an app icon or a widget icon and drag it to a home screen panel.

You can add more and remove any app or widget you don't want visible.

## Making and answering calls

Touch the **Home** key > .

Touch  and enter the phone number with the on-screen keypad. Touch  to delete incorrect digits.

### **NOTE:**

As you enter digits, your phone searches for contacts that match. If you see the number you want to dial, touch it to place the call immediately without entering the rest of the number.

Touch  below the keypad to dial.

## Sending a message

You can use **Messaging** to exchange text messages (SMS) and multimedia messages (MMS).

Touch **Home** key >  to open **Messaging**. Touch  at the bottom right of the screen. Enter the recipient(s) and message text. If you want to send a multimedia message, touch  to add attachments. Touch  to send the message.

## Listening to music

Touch the **Home** key >  >  to open **Play Music**.

You can copy songs to your phone to listen to anytime. Insert a microSDXC card into your phone for more storage space.

## Product Safety Information

	Don't make or receive phone calls while driving. Never text while driving.
	For body-worn operations, maintain a separation of 15 mm.
	Small parts may cause choking.
	Your phone can produce a loud sound.
	To prevent possible hearing damage, do not listen at high volume levels for long periods.
	Avoid contact with anything magnetic.
	Keep away from pacemakers and other electronic medical devices.
	Turn off when asked to in hospitals and medical facilities.
	Turn off when told to on aircraft and at airport.
	Turn off when near explosive materials or liquids.
	Don't use at gas stations.
	Your phone may produce a bright or flashing light.
	Don't dispose of your phone in fire.
	Avoid extreme temperatures.
	Avoid contact with liquids. Keep your phone dry.
	Do not attempt to disassemble your phone.
	Only use approved accessories.
	Don't rely on your phone as a primary device for emergency communications.

## Specific Absorption Rate (SAR)

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health.

The guidelines use a unit of measurement known as Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2 W/kg and the highest SAR value for this device when tested at the head was 0.294 W/kg\*, and when tested at the body was 0.521 W/kg\*. As mobile devices offer a range of functions, they can be used in other positions, such as on the body as described in the user manual\*\*.

As SAR is measured utilizing the device's highest transmitting power, the actual SAR of this device while operating is typically below that indicated above. This is due to automatic changes to the power level of the device to ensure it only uses the minimum power required to communicate with the network.

\* The tests are carried out in accordance with EN 50360, EN 62311, EN 62209-1, EN 62209-2.

\*\* Please see body worn operation.

## Declaration of RoHS Compliance

To minimize the environmental impacts and take more responsibilities to the earth we live on, this document shall serve as a formal declaration that ZTE Blade V770 manufactured by ZTE CORPORATION is in compliance with the Directive 2011/65/EU of the European Parliament - RoHS (Restriction of Hazardous Substances) with respect to the following substances:

1. Lead (Pb)
2. Mercury (Hg)
3. Cadmium (Cd)
4. Hexavalent Chromium (Cr (VI))
5. Polybrominated biphenyls (PBBs)
6. Polybrominated diphenyl ethers (PBDEs)

ZTE Blade V770 manufactured by ZTE CORPORATION meets the requirements of EU 2011/65/EU.

## Disposal of Your Old Appliance

1. When this crossed-out wheeled bin symbol is attached to a product, it means the product is covered by the European Directive 2012/19/EU.
2. All electrical and electronic products should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.
3. The correct disposal of your old appliance will help prevent potential negative consequences for the environment and human health.

## EC DECLARATION OF CONFORMITY

**CE 0700**

It is hereby declared that following designated product:

Product Type: WCDMA/LTE Multi-mode Digital Mobile Phone

Model No: Velocity ZTE Blade V770

Complies with the essential protection requirements of Directives on Radio and Telecommunication Terminal Equipment (Directive 1999/5/EC) Restriction of the Certain Hazardous Substances in electrical and electronic equipment (Directive 2011/65/EU), Eco-design Requirements for Energy-Related Products (Directive 2009/125/EC) and their amendments.

This declaration applies to all specimens manufactured identical to the samples submitted for testing/evaluation. Assessment of compliance of the product with the requirements relating to Directive 1999/5/EC was performed by PHOENIX TESTLAB GmbH (Notified Body No.0700) and assessment of compliance of the product with the requirements relating to Directive 2011/65/EU was performed by Intertek Testing Services Ltd., Shanghai and Directive 2009/125/EC was performed by CCIC Southern Electronic Product Testing (Shenzhen) Co., Ltd., The assessments were based on the following regulations and standards:

Requirement	Standard
