

Toshiba Announces New Satellite L series Featuring Enhanced Performance, Skullcandy-Tuned Speakers in a Modern Styling Design

New Satellite L series delivers powerful capabilities in a stylish design built to increase productivity and provide an excellent entertainment experience

Singapore, 28 May 2014 – Toshiba Singapore Pte Ltd. today announced its latest L Series laptops – the 14.0” Satellite L40 and the 15.6” Satellite L50/L50D. With an extensive range of multimedia features and design options, the Satellite L Series offers versatile performance, modern styling and entertainment-focused features. The new laptops also mark the start of Toshiba’s strategic relationship with audio expert Skullcandy®, adding more robust sound capabilities for greater overall value.

“These new laptops are designed to give users the power and versatility to do more with their laptop,” said Ms Wong Wai Meng, Senior Manager of Product Marketing at Toshiba Singapore Pte Ltd, Digital Products & Services Group. “Full-featured, completely customizable with an all-new stunning design, these laptops provide the ultimate audio and visual experience for movies, games and more.”

User Friendly and Big on entertainment, in any size

The Satellite L Series is powered by a choice of Intel or AMD processors. With up to 4th generation Intel® Core i7 processors providing visibly smart performance at its best and new built in visuals for a better PC experience. Alternatively, the L50D features latest AMD A6-6310 Quad Core APU with Radeon™ R5 Graphics. The system also offers the option of integrated or dedicated graphics depending on the user’s requirements. Integrated Intel® HD graphics are available on both screen sizes while the latest AMD Radeon™ R7 Graphics with 2GB dedicated video memory feature for a fast, responsive performance enabling more multi-tasking and a smoother experience under intensive use.

With a slim profile of only 24mm and with 2 elegant colours to choose from, the sleek Satellite L series is designed to be taken anywhere – making it ideal for users who want a stylish laptop for work and entertainment. The laptops come dressed in Toshiba’s popular glossy finish in Satin Gold or Black.

The distinctive look of the latest L Series is matched by new ergonomic design features for increased comfort over longer periods. The Satellite L series comes fitted with a frameless tile keyboard and a large clickpad that is enhanced by a new keycap design, for improved tactile feedback while typing, so users can be more productive in the home or on the go.

Supreme Sound by Skullcandy

Sporting a mesh slit speaker grill houses a pair of speakers tuned to Skullcandy audio specs rounds out the new design. The Satellite L series is defined by their superior audio, so music can be experienced the way it should sound and with the enrichment of DTS Sound™, volume is boosted, bass is enhanced and definition is improved. To further enhance the sound capabilities of both the Satellite L series, Toshiba turned to the audiophiles at Skullcandy to provide a richer sound experience more commonly heard on more expensive laptops. To achieve clearer, more natural sound, Toshiba and Skullcandy, along with DTS, aligned to tune the built-in speakers to Skullcandy’s audio spec, as well as integrate a custom sound profile with optimized settings for Skullcandy headphones and earbuds. To alert consumers to the audio advantage, Satellite L Series laptops now feature Skullcandy branding.

Designed for flexibility, made for sharing

A huge onboard storage capacity of up to 1TB means users can take their favourite content with them and share it, wherever they go. With up to three USB ports including two USB3.0, it’s quick and easy to transfer data to other devices, upload camera photos and share movies. As one of these ports is also USB Sleep-and-Charge, which allow users to charge USB-powered electronics while the laptop is powered down. For viewing with more people on larger displays without the need for wires, Wi-Fi Certified Miracast™ is included as standard while some models also feature Intel® Wireless Display. Content can also be viewed in defined detail when the laptop is connected to an HD TV via HDMI®.

Toshiba Satellite L40 Series:

Specifications	Satellite L40	
Processor	Intel® Core™ i5-4200U (1.6GHz, up to 2.6GHz)	
Memory	Up to 16GB (2x 8GB)	
Graphics	Intel® HD Graphics	AMD Radeon™ R7 M260 Graphics, 2GB dedicated VRAM
Display	14.0" HD (1366 x 768) LED screen with Clear SuperView Technology	
HDD	Up to 1TB (5400rpm)
