Epson **Stylus Office BX925FWD**

The BX925FWD is a super-fast, low-maintenance duplex machine that efficiently delivers laser-like printing at inkjet prices as well as high-quality scanning, copying and faxing.

It can improve efficiency with print speeds of up to 15 mono and up to 9.2 colour pages per minute[2] or up to 38 pages[3] per minute in draft mode and, by using Epson's DURABrite Ultra Ink, produces crisp text and brilliant colours for professional documents.

Creating double-sided documents can save you money by cutting paper usage by up to 50 percent. Plus, Epson's colour costs less – up to 50 per cent lower than laser competitors[1]. Multiple users can benefit from these savings by printing, scanning and faxing over a network via Ethernet or Wi-Fi. Easy wireless printing from iPhone®, iPod Touch® and iPad™ devices[4] is also available for added flexibility. And reduce time refilling paper with its high-capacity front-loading dual paper trays, one of which can be used for specialist media such as glossy paper.

Giving a more intuitive user experience, the BX925FWD has a large, 19.8cm smart-navigation touch-panel with integrated 8.9cm touch-screen.

With Epson's individual ink cartridges, only the colour used needs to be replaced, and further savings can be made with a choice of cartridges to meet your needs, including XL inks for high volume printing. The BX925FWD is ENERGY STAR qualified to help reduce bills and environmental impact.
