

Pro Fit® Bluetooth® Compact Mouse

The simple, comfortable, go anywhere Bluetooth® mouse.

K74000WW

Product Description

Simple, comfortable, and easy to take on the go, the Pro Fit® Bluetooth® Compact Mouse offers two modes of Bluetooth connectivity (3.0 or 5.0), allowing for use with the widest possible range of Bluetooth-enabled computer devices. Features include cross-platform compatibility; pairing and low battery indicator; ambidextrous, three-button design; quiet clicking; TAA compliance; and a three-year warranty.

Features

- Equipped with two modes of Bluetooth connectivity (3.0 or 5.0), for full compatibility with Bluetooth-enabled computer devices. Connect without using a valuable USB port.
- This mouse works with Windows, Mac, and Chrome operating systems.
- Bluetooth pairing and low battery indicator lets you know that you're properly connected, and when it's time to replace the batteries so you're never caught off guard.
- Comfortable, ambidextrous three-button scroll wheel design gives right- and left-handed users the freedom to get the most out of the mouse, with contours that allow for pain-free extended usage.
- Quiet clicking makes for smooth, non-disruptive operation.
- TAA-compliant, for use in U.S. Federal Government institutions and organizations. Three-year warranty means you can rest assured knowing you're covered by Kensington.
