A revolutionary new ergonomic way to hold your iPad – flip it, spin it, turn it and share it. Comfortably use your iPad while turning it for optimal viewing and easy manipulation of the touch screen without accidentally launching apps or random scrolling. Show friends, present to colleagues, interact without constraints.

Convenient, one-size-fits-all elastic strap ensures a secure grip of your iPad, while the rotating disk allows you to turn the iPad for the best possible viewing angle for any situation! Watch movies, play games or browse the internet with ease and maximum comfort. With the Rev 360°, the best view is always at your fingertips!
