

## WB650

Long-rang photos, now close up

With a 24mm ultra-wide angle lens and 15X Super-zoom, capture the whole world and bring it closer to you. With built-in GPS map-viewer, you will also now know where in the world you are.

### Key Features

3.0" AMOLED screen  
Large, clear screen for great detail and vibrancy of image - in any light conditions.

GPS for Location tagging  
Locate where the photo was taken. Manage and Share photos by location. Makes it easy to find, organize and manage the photos you want.

Smart Auto Mode  
Clever technology optimises the camera automatically to ensure the best results.
