Gigabit Ethernet Board Type C	(10)	406914	$408
IEEE 1284 Interface Board Type A	(10)	411699	$134
IPDS Unit Type 5200	(12)	406804	$558
SD Card for Netware Printing Type E	(13)	406736	$102
Tall Cabinet Type A	(14)	100464FNG	$246
Medium Cabinet Type B	(15)	100465FNG	$234

(3) 550 sheet capacity. Up to 4 Optional Paper Feed Units may be installed for a maximum paper capacity of 2,850 sheets.

(4) No more than 3 Optional Paper Feed Unit TK1120 may be installed at one time.

(5) The assistance of a technician is required when installing all 4 Optional Paper Feed Units.

(6) TK1130 with Casters must be installed anytime the device will be placed directly on the floor.

(7) This option is for the SP 5200DN only.

(8) Hard Disk Drive includes DOSS and Data Encryption.

(9) One available slot. Maximum capacity is 768 MB.

(10) One optional Interface port is available.

(11) Required to run Java based applications.

(12) For use in AS/400 environments.

(13) For use in environments running Novell Netware.

(14) Tall Cabinet Type A is recommended for use with standard mainframe when no Optional Paper Feed Units are installed.

(15) Medium Cabinet Type B is recommended for use when mainframe is configured with 1 or 2 Optional Paper Feed Units.

SP 8300DN

Black & White Printers

RICOH EQUIPMENT SUGGESTED RETAIL PRICE LIST

Model Name	Notes	Part No	SRP
Ricoh SP 8300DN	(1)	407836	$3,060

(1) Ricoh SP 8300DN 50-ppm Black & White Console Laser Printer is user/service installable. Requires two people to lift printer. Includes 4.3" color touch screen display; integrated USB 2.0 Type A host port and SD Card slot; 2 x 550-Sheet Paper Trays; 100-Sheet Bypass Tray; automatic duplexing; 500-Sheet Output Tray; standard 512 MB RAM; 10/100BASE-TX Ethernet; High-speed USB 2.0; 2 USB Host Interfaces; full 36,000 yield toner cartridge.

Optional Accessories	Notes	Part No	SRP
2-Tray Paper Feed Unit PB3130	(2)	415793	$1,650
2,000-Sheet Large Capacity Tray PB3140	(3)	415795	$1,960
1,200-Sheet Side Large Capacity Tray RT3020	(4)	415984	$1,910
1,000-Sheet Finisher SR3090	(5)	415804	$1,930
3,000-Sheet Finisher SR3120	(6)	416008	$3,550
Bridge Unit BU3060	(7)	415988	$220
Punch Unit PU3030 NA	(8)	430719	$980
Output Jogger Type 9002A	(9)	415903	$470
FAC 56 Cabinet Stand	(10)	416407	$290
512 MB Memory Unit Type L	(11)	007121MIU	$258
Hard Disk Drive Option Type 8300	(12)	007120MIU	$504
IEEE 802.11a/g Inteface Unit Type L	(13)	403000	$692
Gigabit Ethernet Interface Type C	(14)	406914	$408
IEEE 1284 Parallel Interface Board Type A	(15)	411699	$134
VM Card Type U	(16)	416163	$200
IPDS Unit Type 8300	(17)	407039	$767

(2) User/Service installable. Requires two people to lift printer and sit on the printer's Paper Feed Unit. 2 x 550-Sheet Paper Trays. Holds up to 11" x 17" paper. Cannot be installed with 2,000-Sheet Large Capacity Tray. Cannot be used with FAC 56 Cabinet.

(3) User/Service installalable. Requires two people to lift printer and sit on the 2,000-Sheet Large Capacity Tray. Contains two side-by-side 1,000-Sheet Paper Trays, each fixed for letter-size paper. Can be installed with 1,200-Sheet Large Capacity Tray. Cannot be installed with 550 x 2 Paper Feed Unit or FAC 56 Cabinet.

(4) Installed on right-side of the printer. Requires configuration with 2,000-Sheet Large Capacity Tray or 550 x 2 Paper Feed Unit.

(5) Requires configuration with Bridge Unit (BU3060) and Two Tray Paper Feed Unit (PB3130), Large Capacity Tray (PB3140), or FAC 56 Cabinet.

(6) User/Service installable. May require two people to lift finisher. Requires configuration with Bridge Unit (BU3060) and Two Tray Paper Feed Unit (PB3130), Large Capacity Tray (PB3140), or FAC 56 Cabinet.

(7) The Bridge Unit (BU3060) is a required accessory when the main unit is to be configured with either Finisher. The Bridge Unit transports papers from the printer's standard exit area into a Finisher for online stapling, punching, and/or folding.

(8) The Hole Punch Unit Type PU3030 NA is optional for the 3,000-Sheet Finisher Type SR3120 only and installs inside the Finisher.

(9) The Output Jogger Unit Type 9002A is optional for the 3,000-Sheet Finisher Type SR3120 only. It taps sheets in the Shift Tray into aligned sets for stacking or off-line binding.

(10) Installs beneath main unit. FAC 56 Cabinet Stand must be selected when the printer main unit is to be configured with a Finisher, but not a paper supply option.

(11) Service installable. Expands RAM to 1.0 GB memory. Required if an IPDS Option is installed.

(12) Service installable. 120 GB provides for retention of documents in the printer. Documents can be printed on-demand without sending original to the PC. HDD is required for USB/SD Card printing and if an IPDS Option is installed.

(13) Service installable. For Wireless LAN connection. Cannot be installed with Gigabit Ethernet Board or IEEE 1284 Interface Board at the same time.

(14) Service installable. Cannot be installed with the IEEE 1284 Interface Board at the same time.

(15) Service installable. For use when a Parallel connection is required. Cannot be installed with the Gigabit Ethernet Board or IEEE 802.11a/g Interface Unit at the same time.

(16) Allows for running of Java-based applications. Cannot be installed with the DataOverwriteSecurity Unit.

(17) For use in AS/400 environments. Additional 512 MB memory and the Hard Disk Drive Option is required.

Browser Unit Type M6	(15)	407225	$125
VM Card Type W	(16)	407218	$109
Optional Counter Interface Unit Type A	(17)	413012	$81
Copy Data Security Unit Type G	(18)	416391	$960

(2) A maximum of Two (2) Optional Paper Feed Units may be added for a maximum paper capacity of 1,600 sheets including the standard Paper Tray and Bypass Tray.

(3) Supports paper sizes up to 8.5" x 14" and paper weights up to 43 lb Bond/90 lb Index.

(4) 250-Sheet Paper Feed Unit.

(5) 500-Sheet Paper Feed Unit.

(6) Raises the system to an optimal height for floor placement. This versatile cabinet is adjustable and supports all approved Main Unit/Paper Tray configurations. Provides added storage for paper and extra supplies.

(7) One open interface board slot is available. Wireless LAN, Parallel Interface or File Format Converter may be installed.

(8) For environments that require Parallel connectivity.

(9) This option allows you to connect the device to an IEEE 802.11 a/b/g/n Wireless LAN.

(10) The Hard Disk Drive (HDD) transforms the MFP into an information portal. The HDD is required for Document Server, Locked/Hold/Stored Print, Print-from-USB/SD Card, Store File, Scan-to-Folder/Memory, Preview Before Transmission, and managing received fax documents using Web Image Monitor. Data Overwrite and HDD Encryption are available when the HDD is installed.

(11) Increases the memory to 1.5 GB and allows you to use the Browser and Extended Features.

(12) Allows you to use the searchable PDF function.

(13) This options enables direct printing of XPS format documents.

(14) Required for downloading documents stored to Document Server in copier or printer mode to your PC using Web Image Monitor.

(15) Provides the ability to browse the Internet and print the Web pages displayed on the control panel. HDD and additional Memory must also be installed for the Browser option to work.

(16) The VM Card enables the installation of embedded software applications. HDD and additional Memory must also be installed.

(17) 20-Pin Interface used to attach external key counter or key card device.

(18) If a document containing embedded text for unauthorized copy guard is copied, protected pages are grayed out in the copy.

ESP XG-PCS-15D Power Filter	(19)	006428MIU	$346
ESP AC1 Power Filter	(20)	ESPAC1	$30

(3) 500-sheet capacity. Supports paper sizes up to 8.5" x 14" and paper weights up to 59 lb. Bond/120 lb. Index. A maximum of four (4) additional Paper Feed Units may be added to the mainframe for a maximum paper capacity of 2,600 sheets.

(4) Caster Table is required when the three (3) or four (4) optional Paper Feed Units (Type PB 1100) are installed.

(5) Recommended for the base unit for a floor-standing configuration.

(6) Recommended when one (1) or two (2) additional Paper Feed Units (Type PB 1100) are added for a floor-standing configuration.

(7) One open interface board slot is available. Wireless LAN, Parallel Interface, USB Device Server, Extended USB, or the File Format Converter may be installed.

(8) This option allows you to connect the device to an IEEE 802.11 a/b/g/n wireless LAN.

(9) For environments that require Parallel connectivity.

(10) This option provides an additional Network Port, which allows the MFP to reside on two networks simultaneously.

(11) Provides an additional USB Type B port / connection for printing.

(12) 20-Pin Interface used to attach External Key Counter or Key Card Device.

(13) This option enables direct printing of XPS format documents.

(14) Required to convert file format and drag documents stored via Document Server to desktop.

(15) This function embeds invisible text on scanned images of PDF and enables users to search PDF files by arbitrary keywords. Searchable PDF files can be sent to email, folders and external media (SD/USB.

(16) Enables users to send and receive faxes from other devices on the same network (up to 6) via the Primary MFP which has the Fax Connection Unit installed.

(17) Enables users to log into and authenticate to the MFP with a programmed access card.

(18) For customers who require the CC certified Data Overwrite Security function.

(19) The ESP XG-PCS-15D power filter provides multi-stage power protection as well as line conditioning. Ricoh Advanced Technical Support (ATS) recommends the use of Power Protection products to minimize potential electrical interference with products.

(20) The ESP AC1 power filter provides multi-stage power protection for output devices. Ricoh Advanced Technical Support (ATS) recommends the use of Power Protection products to minimize potential electrical interference with products.

Minimum Advertised Price (MAP) Guidelines

Ricoh Corporation maintains a Minimum Advertised Price (MAP) policy. As a Ricoh Reseller, you shall uphold Ricoh Corporation's MAP policy in all product advertising whether in print or on the Internet.

- Reseller can sell Ricoh products at any price. Ricoh is not dictating the Reseller's selling price.
- Ricoh will monitor MAP. MAP will be determined with Ricoh Product Marketing and communicated as changes are made. List of MAP pricing will be provided to all partners.
- Advertised Price is defined as all advertising, electronic distribution (including but not limited to banners, Emails and public Web sites). MAP does not include secure/private Web sites where customers are logged into their accounts.
- Please contact your Ricoh Channel Account Manager for approval of "Free", "Bundled", "Rebates", or "Quotes".

MAP guidelines must be strictly followed. Ricoh resellers must adhere to Ricoh Corporation's policy regarding the MAP.

Warranty Descriptions

Standard Warranty:

Ricoh printers and multifunctional printers purchased through the IT distribution channel are provided with a one-year standard warranty against defects in materials and workmanship from the date of purchase. The method of warranty service varies depending on the device purchased. For information regarding the method of service that will apply to the device you are considering for purchase, please contact your Ricoh Channel Account Manager.

Warranty service is best facilitated by product registration. Product registration may be accomplished online (http://www.ricoh-usa.com/support/warranty_registration.aspx) or by fax or mail via the warranty registration card in the device box. Failure to register in a timely manner may result in the need to provide proof-of-purchase to obtain warranty services.

User replaceable consumables and parts (example: toner cartridges, photoconductor units, etc.) are warranted for a period of either ninety days or one year (depending on product line) from the date of purchase unless otherwise defined.

Methods of Service:

On-Site: A Ricoh Service Representative will be dispatched to perform on-site service during the warranty period if initial diagnosis and resolution efforts by Ricoh Support fail to resolve the issue.

Advanced Exchange: For those products that offer Advance Exchange as a Standard Warranty, Ricoh Support will attempt to diagnose and resolve technical defects via telephone. If Ricoh Support determines that the repair cannot be accomplished over the telephone, a like replacement product will be shipped at no charge within 24 hours. The original unit must be returned in accordance with the instructions provided inside the replacement product carton.

Installation: Customers may purchase Installation to receive support from a Ricoh Service Representative. Installation includes basic product installation and connection to the network for one server and two workstations. Connections to additional servers and/or workstations will be billed on a time and material basis.

Extended Warranty:

Extended warranties that can add up to three years coverage to your standard warranty are available for purchase. Extended warranties help protect your investment and assure you that the Ricoh Support and Service Representatives will be available to you for multiples years. Additionally, for those devices that provide Advanced Exchange as their standard warranty offering, upgrades to On-Site Service are also available depending on device. Customers can purchase an extended warranty within the original warranty period (one year of purchase) of printer and multifunctional printer purchase (proof of purchase required). Extended warranties are available in California, Virginia, and Florida commercially. The additional protection options are available as follows:

On-Site Service Extended Warranty: Offers an additional 1 or 2 years term of limited warranty protection.

Advanced Exchange Extended Warranty: Offers an additional 1, 2, or 3 years term of limited warranty protection.

Advanced Exchange Upgrade Warranty: Offers an upgrade from Advanced Exchange to an On-Site Warranty.

Ricoh Support: 1-800-RICOH-38

Ricoh Support (800-Ricoh-38) is a dedicated support center for customers seeking warranty support for devices purchased through the IT distribution channel. The Support Center is available 24 hours a day, 7 days a week. Ricoh will assist the caller and will validate support entitlement by serial number for devices requiring Advanced Exchange or On-Site service. Additionally, frequently asked questions are available online at http://www.ricoh-usa.com/support/knowledge_base.aspx.

Minimum Advertised Price (MAP) Guidelines

Ricoh Corporation maintains a Minimum Advertised Price (MAP) policy. As a Ricoh Reseller, you shall uphold Ricoh Corporation's MAP policy in all product advertising whether in print or on the Internet.

- Reseller can sell Ricoh products at any price. Ricoh is not dictating the Reseller's selling price.
- Ricoh will monitor MAP. MAP will be determined with Ricoh Product Marketing and communicated as changes are made. List of MAP pricing will be provided to all partners.
- Advertised Price is defined as all advertising, electronic distribution (including but not limited to banners, Emails and public Web sites). MAP does not include secure/private Web sites where customers are logged into their accounts.
- Please contact your Ricoh Channel Account Manager for approval of "Free", "Bundled", "Rebates", or "Quotes".

MAP guidelines must be strictly followed. Ricoh resellers must adhere to Ricoh Corporation's policy regarding the MAP.

Warranty Descriptions

Standard Warranty:

Ricoh Projectors purchased through the AV distribution channel are provided with a standard warranty, term based on model line, against defects in materials and workmanship from the date of purchase. For information regarding the method of service that will apply to the device you are considering for purchase, please contact your Ricoh Channel Account Manager.

Warranty service is best facilitated by product registration. Product registration may be accomplished online (http://www.ricoh-usa.com/support/warranty_registration.aspx) or by fax or mail via the warranty registration card in the device box. Failure to register in a timely manner may result in the need to provide proof-of-purchase to obtain warranty services.

User replaceable consumables and parts (example: toner cartridges, photoconductor units, etc.) are warranted for a period of either ninety days or one year (depending on product line) from the date of purchase unless otherwise defined.

Methods of Service:

Advanced Exchange: For those products that offer Advance Exchange as a Standard Warranty, Ricoh Support will attempt to diagnose and resolve technical defects via telephone. If Ricoh Support determines that the repair cannot be accomplished over the telephone, a like replacement product will be shipped at no charge within 24 hours. The original unit must be returned in accordance with the instructions provided inside the replacement product carton.

Ricoh Support: 1-800-RICOH-38

Ricoh Support (800-Ricoh-38) is a dedicated support center for customers seeking warranty support for devices purchased through the IT distribution channel. The Support Center is available 24 hours a day, 7 days a week. Ricoh will assist the caller and will validate support entitlement by serial number for devices requiring Advanced Exchange or On-Site service. Additionally, frequently asked questions are available online at http://www.ricoh-usa.com/support/knowledge_base.aspx.
