

10 Gb/100 Gb Duplex Multimode 50/125 OM4 LSZH Fiber Patch Cable (LC/LC), Aqua, 20 m (65 ft.)

MODEL NUMBER: **N820-20M-OM4**

Description

The N820-20M-OM4 10 Gb/100 Gb Duplex Multimode 50/125 OM4 LSZH Fiber Patch Cable is OM4-rated for use with 40/100 Gb Ethernet applications up to 300 meters (@ 850 nm). For fast, clear signal transmission through your local area network (LAN) or storage area network (SAN), this high-speed, low-cost cable provides three times more bandwidth than conventional 62.5 μm multimode fiber and performance rivaling that of singlemode cable.

Backward compatible with existing 50/125 fiber, the aqua-colored N820-20M-OM4 is manufactured using top-quality materials. Dual male LC connectors are widely compatible and thoroughly tested to meet stringent insertion loss standards. It has 50/125 duplex (zipcord) fiber made from glass and a low-smoke zero-halogen (LSZH) jacket, which limits the amount of toxic smoke emitted in case of combustion, making this cable perfect for poorly ventilated areas.

This laser-optimized multimode fiber (LOMMF) cable is ideal for LANs, SANs and high-speed parallel interconnects for head-ends, central offices and data centers. It's commonly used with vertical-cavity surface-emitting laser (VCSEL) and LED laser light sources. Complies with IEEE 802.3ae and TIA LOMMF standards.
