Applications

- Hospitality
- Retail
- Receipts
- Coupons
- Daily reports
- Kitchen orders

High speed and performance

Quick and convenient, the 300mm/s, front-exit CT-E651 is perfect for hospitality and retail alike. The front exit for hospitality protects the mechanism from spills and crumbs.

In retail, the compact footprint fits perfectly beneath all-in-one retail systems or alongside a cash drawer - after all it is the same height.

Add to that, Bluetooth™ and WiFi™ interface options for great connectivity.

Stylish design

The compact, cubic design makes the CT-E651 one of the most stylish and sleek printers on the market as well as minimising its footprint. Its bold black and pure white colours and LED controls create a visually stunning and eye-catching aesthetic.

CITIZEN

Easy interfacing
The CT-E651 is designed to meet all interfacing needs. USB 2.0 is standard, with LAN, Serial, WiFi and Bluetooth optional depending on user requirements.

CITIZEN CT-E651

Features & Benefits
- Front exit, top loading
