LMP USB-C to Mini-DisplayPort Adapter

PRODUCT OVERVIEW

Share your photos on a big screen with your friends. Play a movie on your Mac and see it in high definition with full audio support on your HDTV. Just connect your USB-C equipped computer with this adapter to any monitor, HDTV, projector, etc. with a DisplayPort interface.

USB-C (using the USB 3.1 bus) to Mini-DisplayPort (Mini-DP) adapter to connect external monitors, projectors, TVs, etc. Compatible to all Macs or PCs with USB-C port. Transmits video and audio signal with flexible support for USB 5G and DisplayPort 1.2 (DP Altmode). Supports DisplayPort 1.2 and former standards (up to UHD 4K), 5.4 Gbps (HBR2), 2.7 Gbps (HBR) and 1.62 Gbps (RBR) bandwidth per lane, multiple color formats (RGB 6/8/10/12-bit, YCbCr4:4:4, YCbCr4:2:2, 8/10/12 bpc).
