Model # 43H6E

I'm a big deal

Have you ever seen a 4K Ultra HD TV like this? We're guessing that if you did, it wasn't this affordable. With four times more pixels (8.3 million) than standard high-definition TV, the Hisense H6 Series 4K Ultra HD Smart TV is built to deliver bright colors and rich contrast. HDR* technology maximizes brightness, the UHD Upscaler brings lower resolution content as close to 4K as possible, and Motion Rate 120 keeps up with the fastest sports, movies and 4K gaming. This series also comes with tons of built-in apps via the Hisense Smart Platform, making it easier than ever to personalize your entertainment.

4K resolution and Upscaler

With over 8 million pixels, the Hisense H6 Series offers a crisp, clear picture when compared to Full HD. And thanks to our UHD Upscaler, which brings lower resolution content as close to 4K as possible, your favorite movies, games and shows are ready to be seen in a whole new light.

HDR

High Dynamic Range (HDR*) boosts the contrast of every image while delivering vivid, deep colors. With enhancements to the darkest and lightest areas of the picture, HDR* delivers an image that looks closer to life.

*HDR viewing experience will vary by model, content availability and internet connection.
