1U 18.5-inchFlat Panel Console Kits

Cost-effective flat panel console kits offer a convenient way to manage space-constrained racks.

Space savings

These densely packed 1U solutions let you easily set up and control rack-mounted System x, BladeCenter, or Flex System servers. They offer additional space savings by allowing the mounting of the KVM switch in the 0U space behind the console. These kits include an 18.5-inch LCD display and accept an UltraNav keyboard available in 29 languages. The Enhanced model includes as standard a multi-burner drive and dual USB ports for additional conveniences. The Enhanced model also features an optional Smart Card reader/Common Access Card (CAC) reader.[1]

The Enhanced 18.5-inch Console Kit, when coupled with the GCM or LCM KVM switch and VCO cable, creates a virtual media solution that allows for the out-of-band transfer of data to deploy or patch multiple servers from one local console through the integrated dual USB pass thru, integrated optical drive and/or optional CAC reader.[1]

Improved viewing area

The 18.5-inch LCD display provides a greater viewing area, increasing productivity and making today's applications easier to use. The 18.5-inch Enhanced Console Kit includes a DVD burner, meaning you don't need an optional drive in each server—eliminating the need to physically locate each server to insert media at the rack.

Increased security

The optional Smart Card reader/CAC reader offers a new level of security enabling Two Factor Authentication which provides additional at the rack security.[1]

Specifications

Product	1U 18.5-inch Standard Console	1U 18.5-inch Enhanced Media Console
Machine Type Model	17238BX	17238EX
Feature Code	A3EK	A3EL
Max Resolution	1600 x 1200	1600 x 1200
DVD/DVR	No	Yes
USB ports	0	2
CAC reader	No	Optional – 44X3159
Form Factor	1U	
Warranty	3-year limited warranty
