

# BRING LESSONS TO LIFE

Capture students' imagination and bring lessons to life with bright, interactive presentations. This ultra-short-throw projector series turns flat surfaces into an interactive whiteboard\*<sup>1</sup>.

## EB-5 Series

Helping teachers to capture the attention and imagination of their students, the EB-5 Series is a multifunction interactive teaching tool that makes engaging presentations. The new finger-touch feature allows hands-on interactivity\*<sup>1</sup>, while the ultra-short-throw design minimises shadows and glare.

- Create vivid presentations thanks to Epson's 3LCD technology, which provides an equally high White and Colour Light Output for bright images and vivid colours, and three times brighter colours compared to leading competitive projectors\*<sup>3</sup>
- Easily annotate presentations using the finger-touch feature\*<sup>2</sup>, or dual pens with separate attributes\*<sup>1</sup>, or single pen interactivity\*<sup>1</sup>
- Make an impact with the large projected image size, which is interactive right to the corners\*<sup>1</sup>
- Conveniently present without a PC thanks to PC-free annotation
- A complete interactive package including, Easy Interactive Tools software and wall-mount, no need for an interactive whiteboard
- Benefit from longer lamp life thanks to the eco mode setting, dynamic lamp control and auto brightness adjustment
- Share content wirelessly from a variety of smart devices using the iProjection App\*<sup>4</sup>

Annotate directly onto the screen with **new** finger-touch technology

Control and Connection Box for easy operation

**Finger-touch and Dual Pen**

Use your fingers to annotate directly onto the screen. Epson's interactive pens are now even more responsive and easy to use. With the new dual pens, teacher and student or two students can work simultaneously using different pen attributes.

### Quality images

Epson's 3LCD technology ensures high-quality images with equally high White and Colour Light Output for vivid colours and bright images, even in daylight, and three times brighter colours than leading competitive projectors<sup>\*\*</sup>. WXGA resolution, that matches the resolution and aspect ratio of most laptop displays, and HDMI input mean that students benefit from sharp, clear projected images.

### Save time

Simply plug in and turn on – there's no warm-up time and the PC-free annotation mode means that teachers don't even need to power up their computers. The interactive function does not require drivers to be installed and it auto-calibrates. With a wall-mounting bracket included in the box, it's easy to get started.

### Wireless projector

The wireless capability allows you to show content easily from a range of smart devices using the iProjection App<sup>\*\*</sup>.

### More control and collaboration

The moderator function allows teachers and students to share their content simultaneously. Teachers remain in complete control as they can choose when to display student content – ideal for interaction in a collaborative teaching or training environment.

\*EB-595Wi, EB-585Wi, EB-575Wi, EB-585W and EB-575W only. \*\*EB-595Wi, EB-585Wi and EB-575Wi only. \*\*EB-595Wi only. \*\*Compared to leading 1-chip DLP business and education projectors based on NPD data, July 2011 through June 2012. Colour brightness (Colour Light Output) measured in accordance with IDMS 15.4. Colour brightness will vary depending on usage conditions.
