DEVASTATOR II

Gaming Keyboard and Mouse Combo

Product Features

KEYBOARD

- **Mem-chanical Switches** - Cooler Master's exclusive switches are durable and feel like mechanical switches with satisfying tactile feedback
- **LED Backlighting** - Uniqlo Single LED backlight helps you type at night. Plus, it looks cool
- **Dedicated Media Hotkeys** - Extra keys give you full control of music, movies, and in-game sound right at your fingertips
- **Laser etched Keys** - The print on each keycap won't fade or disappear
- **Compatible with Custom Keycaps** - Customize each key with your own keycaps. Cherry MX compatible

MOUSE

- **On-the-fly DPI Settings** - Switch quickly between three preset DPI settings: 1000/1600/2000

Package Dimensions	56.2*24.2*4.55 cm
Carton Dimensions	57.0*50.5*26.0 cm
Unit / Carton	10 pcs
Carton / Pallet	28

The Devastator keyboard and mouse combo is one of Cooler Master's top selling products. User comments show high satisfaction with the combo.

"The keys actually feel mechanical, even though they are membrane. They have a sort of tactile feedback without the noise of springs. I would (almost) argue that they have a better feeling than Cherry MX, but are slightly harder to type on.

- Roland N., Amazon.com Review, Verified Purchase

With the DEVASTATOR II, we set a goal for an even better feeling keyboard while keeping the low price. The result is a membrane switch that feels so much like a mechanical switch that we've called them...

Mem-chanical Switches

Specification
