EnviroSense Environmental Sensor, Temperature, Humidity and Contact-Closure Inputs for UPS and PDUs

MODEL NUMBER: **ENVIROSENSE**

Description

Tripp Lite's ENVIROSENSE module (when used with Tripp Lite SNMP/Web Cards or Intelligent PDU's) provides remote temperature/humidity monitoring and a dry contact interface to control and monitor alarm, security and telecom devices.

Features

- Connects to Tripp Lite Internal or External SNMP/Web Cards or Intelligent PDU's
- Allows remote temperature/humidity monitoring in network environments
- Provides monitoring and control of alarm, security and telecom devices through a dry-contact interface
- Compliant with the Federal Trade Agreements Act (TAA) for GSA Schedule purchases

Highlights

- Environmental Sensor for use with Tripp Lite SNMPWEBCARD enabled UPS systems, Monitored PDUs and Switched PDUs
- Send/receive contact closure signals with up to four compatible devices (such as smoke detectors, fire alarms and security systems)
- Simple installation
- Compliant with the Federal Trade Agreements Act (TAA) for GSA Schedule purchases

Applications

- Ideal for the remote temperature/humidity monitoring and monitor/control of alarm, security and telecom devices.

Package Includes

- ENVIROSENSE
- Manual
