

OL8KRTMBTF SMART APP ONLINE UPS SYSTEM

Safeguard mission-critical servers, applications, and network equipment with seamless, double-conversion power protection

The CyberPower Smart App Online OL8KRTMBTF is a 8U rack/tower UPS featuring double-conversion topology for seamless power protection, an intuitive maintenance bypass switch design, a pre-installed RMCARD205 and a 2U step-down transformer to support 120 V and 200-240 V output requirements. Ensure maximum efficiency and capacity output with a Power Factor rating (PF) of 1. The energy-saving GreenPower UPS™ ECO Mode enables up to 96% efficiency while reducing power consumption and thermal dissipation. Smart battery management charging technology increases battery life up to 50% and replenishes battery charge from 0-90% in five hours.

The OL8KRTMBTF enhanced LCD control panel functionality provides the ability to change the IP address, view UPS load energy consumptions, and select UPS diagnostic tests.

Variable 4-speed fans provide automatic thermal management, based on power load, to reduce noise. A tamper-proof input circuit breaker ensures power is not turned off unexpectedly during service or maintenance. The OL8KRTMBTF simplifies installation with a quick start guide, user-friendly lifting straps, and an enhanced hanging rack mount rail system.

The optional BP240VL3U01 Extended Battery Module expands runtime and speeds restoration of full backup power. The OL8KRTMBTF comes with a three-year warranty (including batteries) and a \$300,000 Connected Equipment Guarantee.
