2. Press CD/MP3 Open/Close button to open the CD/MP3 compartment.
3. Place a CD/MP3 on the tray, label side up.
4. Close the CD tray, the total number of tracks will be displayed.
5. Press PLAY/PAUSE button to start playback from the first track and the track name displayed during playback.
6. For MP3, simply enter numeric numbers for quick search.

USB PLAY OPERATION
In the front panel of the unit, there is an USB input (15). You can connect an USB driver through this interface. If no discs inserted in the unit, the unit will search the MP3 files or WMA files in the USB driver and start to play MP3 files or WMA files automatically. If in DVD/MP3/CD mode, you can also press USB button to select USB mode.
When playing the MP3 files or WMA files in the device, the operation is the same with the MP3 operation described above.
Note:
* When in USB play mode, be sure not to remove the USB driver from the USB input.
CAUTION:
When there are important files in the USB device, do not connect it to the main unit to play. And don't play the CD-R/RW disc that has important files in it. Because any wrong operation may cause files loss, our company assumes no responsibility for this.

SPECIFICATION
☞ **GENERAL**
