Record longer

with rechargeable batteries

Benefit from long-lasting performance for your digital recorder. Nickel-Metal Hydride technology allows recharging up to 1000 times and makes replacement of the batteries almost unnecessary.

Top performance

- Enjoy the full capacity over and over again
- NiMH technology for recharging multiple times
- Save the environment and money compared to alkaline batteries
- The battery for Philips dictation recorders

PHILIPS
sense and simplicity

Specifications

Highlights

Power

- Battery capacity: 1600 mAh
- Battery type: AA Nickel-Metal Hydride
- Battery voltage: 1.2 V

Package contents

- 2 rechargeable batteries

Compatibility

- Philips Pocket Memo dictation recorder:
LFH0388, LFH0488

Green specifications

- Chemical composition: Nickel-Metal Hydride
- Heavy metals: Cd free, Hg free

No capacity loss over time

A Nickel-Metal Hydride battery can be re-energized fully up to 1000 times without draining it before charging. This allows easier and better use of your rechargeable batteries.

Nickel-Metal Hydride

Nickel-Metal Hydride technology allows recharging multiple times and makes replacement of the batteries almost unnecessary.

Environment friendly batteries

Because rechargeable batteries can be recharged and reused numerous times, they contribute less waste and help save your money and the environment.

1600 mAh rechargeable AA

The 1600 mAh of energy offers long-lasting performance for your recorder.
