

## MasterPulse

In-ear headphones with  
Patented Bass FX Technology

The MasterPulse in-ear headphones are forged for those who demand portability and exceptional sound quality. Featuring exclusive 8mm drivers with patented Bass FX technology, high-grade aluminum housing, and passive noise isolation, MasterPulse also includes an in-line microphone with a precise sensor for clearer audio and less background noise. Whether gaming, chatting with friends and family, or listening to tunes or movies, the MasterPulse provides a superb audio experience.

### Product Features

- Patented Bass FX technology lets you apply a responsive bass boost by twisting the dial at the end of each ear cap
- High-grade aluminum housing offers the finest quality and durability over a long lifespan
- Lightweight and durable rubber caps provide passive noise isolation
- Remote in-line microphone with a precise sensor records clearer audio with less background noise
- Switch between smartphone, tablet, or PC with the included gold-plated adapter
- Tangle-free flat cable design for improved portability
