These new kits ensure **great flexibility** and ease of use in any type of circumstance.

- **Double functionality to support your creativity.**

PIXI Xtreme and PIXI Smart's double functionality now goes even further, with added emphasis on video capability. They work as a **comfortable ergonomic grip** to capture great videos and take the best selfies; they're also a **stable holder** to capture incredible images.

- **The perfect size for extreme portability.**

Weighing a mere 191 gr/0.42 lbs, supporting a payload of up to 1 kg/2.2 lbs and only 18,5 cm/7.28 in tall when closed the PIXI tripod is the perfect size to accompany you everywhere.
