HP Thin Clients

The world’s most secure and comprehensive Thin Client portfolio¹ for cloud computing and beyond
THE NEW ERA OF HP THIN CLIENT COMPUTING IS HERE

Complete the move to cloud with **modern, secure, manageable desktop and mobile** HP Thin Client solutions designed for cloud computing. Select the right performance configurations for your users’ workstyles, and streamline IT with built-in software that simplifies deployment and centralizes management in complex environments.

THE HP THIN CLIENT DIFFERENCE

**Protect your identity, device, and data with trusted HP security**

An inherently secure device that retains no local data is just the beginning. We also add multi-layered, globally-recognized HP software that protects the thin client above, in, and below the OS.

**Simplify device management with built-in tools**

Easy-to-use, value-added manageability software offers an IT solution that scales with your business and is included on every device. Remotely setup, deploy, and manage a fleet of thousands from one location.

78% of IT managers say supporting a multi-device, multi-OS environment with new technologies is challenging².
Form, fit, and function for a range of industries

Deploy a design that’s not just sleek and compact, but dependable, too. HP Thin Clients produce next to no noise, dust or heat and can withstand temperatures in enclosed spaces like kiosks. Set, stand, mount or cover a desktop, or take a mobile device to go.

Designed to enhance your workforce, workplace, and workstyle

Drive user productivity with powerful processing, local-quality multimedia, and instant Unified Communications on reliable, adaptable HP Thin Clients. Choose your OS and configuration and also get built-in software, and world-class support.

“We chose HP Thin Clients because of the reduced hardware footprint, enhanced security and the centralized, simplified management. These factors, in tandem with low maintenance costs, ease of deployment and low power consumption, made the thin clients the ideal solution for our business.”

- Atif Aziz Ahmed, Chief Information Officer, Khushhali Microfinance Bank
When it comes to protecting your data, device and identity, HP Thin Clients are an ideal choice for organizations requiring the highest level of security.

**SECURE BY DESIGN, SECURE IN OPERATION**

81% of companies had a security breach in past 12 months, costing $3.6M on average.**
